Some things will not happen until you open your mouth. Your voice has the power to bring heaven to earth. God has given believers the ability to speak as He spoke, causing things that were not to be. The believer's voice pulls, roots out, throws down, destroys, and builds up and plants (Jeremiah 1:10). When we speak according to the Spirit of God, our voices bring heaven to earth. When we open our mouths, heaven is speaking. When we prophesy, heaven is speaking. When we speak by the Spirit of God, heaven is speaking. No matter how much it seems like hell is raging, when we open our mouths and speak God's Word, heaven comes. In Activate Heaven, John Eckhardt shows you how to use your voice to advance God's agenda in the earth and equips you to stand against everything the enemy uses to silence your voice, from depression and confusion to sickness, pain, and rejection. The enemy would like nothing more than to silence the church. But when we open our mouths, the sick get healed, demons flee, miracles and finances are released, resulting in situations turned around. Speaking the will of God—speaking forth that which is in heaven—is the essence of the prophetic. Therefore, it's time to stop complaining and start prophesying. It's time to stop talking about how bad things are and begin to open our mouths and declare that as we speak heaven comes. This book will teach you how to use the most powerful tool you possess: Your voice. You will be empowered to rip off the muzzle placed upon you by man, and you will exercise the supernatural power of your voice.

Cultivating Moral Character and Virtue in Professional Practice is a pioneering collection of essays focused on the place of character and virtue in professional practice. Professional practices usually have codes of conduct designed to ensure good conduct, but while such codes may be necessary and useful, they appear far from sufficient, since many recent public scandals in professional life seem to have been attributable to failures of personal moral character. This book argues that there is a pressing need to devote more attention in professional education to the cultivation or development of such moral qualities as integrity, courage, self-control, service and selflessness. Featuring contributions from distinguished leaders in the application of virtue ethics to professional practice, such as Sarah Banks, Ann Gallagher, Geoffrey Moore, Justin Oakley and Nancy Sherman, the volume looks beyond traditional professions to explore the ethical dimensions of a broad range of important professional practices. Inspired by a successful international and interdisciplinary conference on the topic, the book examines various ways of promoting moral character and virtue in professional life from the general ethical perspective of contemporary neo-Aristotelian virtue theory. The professional concerns of this work are of global significance and the book will be valuable reading for all working in contemporary professional practices. It will be of particular interest to academics, practitioners and postgraduate students in the fields of education, medicine, nursing, social work, business and commerce and military service.
