In the early part of the 21st century convincing arguments were mounted that knowledge needed to be 'brought back in', both to the curriculum of schools and to the attention of curriculum researchers. The guide is an essential resource for trainee teachers working towards the Teachers' Standards for qualified teacher status (QTS).

It also helps newly qualified teachers (NQTs) and more experienced teachers have an 'understanding of, and always act within, the statutory frameworks which set out their professional duties and responsibilities' Teachers' Standards. Higher Level Teaching Assistants (HLTAs) and Teaching Assistants (TAs) working towards HLTA status will find the guide invaluable in developing knowledge of how 'other frameworks that support the development and well-being of children and young people impact upon their practice' HTLA Professional Standards.

Focusing on a key area of debate within the world of secondary English, the 'knowledge-based curriculum', this book explores in detail the question of

knowledge in the teaching of English in secondary schools, drawing on specific concrete cases and a range of academic theories. Knowledge in English also investigates how to teach both facts and skills through the required texts to produce a balanced educational experience. Elliott brings together classic texts with contemporary knowledge and viewpoints to critically examine teaching in the English literature classroom, and situates them within the broader cultural and political context. The book includes discussions on race and gender in texts, Shakespeare and his influence, facts and emotions in poetry, and reading experiences. Knowledge in English is a foundational and accessible guide for researchers, practitioners, teacher educators and teachers around the world. It is a valuable resource for those involved in the English curriculum to keep the subject relevant and useful to students in the

In light of the transfer of responsibility for prison education to the Department for Education and Skills (DfES), the Committee's report examines the provision of education and training in prisons, including the overall strategy for prison education, delivery structures at national, regional and local levels, programme contents in comparison to external standards, and barriers to delivery across the wider prison regime. Findings include that current provision is unacceptable in terms of quantity and quality of provision, and a fundamental shift in approach is required. Although there has been an increase in resources available, in 2004 on average only a third of prisoners had access to prison education at any one time. The Committee highlights the need for an overarching strategy and higher priority to be given to prison education, based on recognition of its

This is the Committee's scrutiny of the draft Apprenticeships Bill which was published on 16 July 2008. While putting much of the current arrangements for apprenticeships onto a statutory basis, the draft Bill provides greater flexibility to allow employers to design and bring forward for approval their own apprenticeship frameworks. The extent of this flexibility was not clear as a key document, the specification of apprenticeship standards, which will determine the core components of frameworks was not published with the draft Bill. Nor did

# Download Free English Level 1 Edexcel

the Government set out in detail how the National Apprenticeship Service would be resourced or organised, or how the legislation would apply in Wales. These as key omissions impeded the scrutiny process. With this in mind it was concluded that in general the legislation is justified because it has the potential to strengthen the structure for apprenticeships in England. However there was a major concern of volume at the expense of quality. The Government must ensure that the draft Bill is re-written to promote, monitor and report on the quality of apprenticeships. Without

# Download Free English Level 1 Edexcel

provisions underpinning quality, the legislation risks the devaluation of apprenticeships, and employers, parents and young people as well as adults will cease to see apprenticeships as a progressive route through to a future career.
