Profiling "notable leaders of the library profession," this volume is meant as an addendum to two preceding volumes of profiles, published in 1978 and 1990. The largely American profilees were chosen for their work in public, academic, and archival library practice. The majority of them died between July of 1987 and December of 2000, although some are included in order to correct perceived omissions from the earlier volumes. **Informed by the most up-to-date research from around the world, as well as examples of good practice, this handbook analyzes values education in the context of a range of school-based measures associated with student wellbeing. These include social, emotional, moral and spiritual growth – elements that seem to be present where intellectual advancement and academic achievement are being maximized. This text comes as 'values education' widens in scope from being concerned with morality, ethics, civics and citizenship to a broader definition synonymous with a holistic approach to education in general. This expanded purview is frequently described as pedagogy relating to 'values' and 'wellbeing'. This contemporary understanding of values education, or values and wellbeing pedagogy, fits well with recent neuroscience research. This has shown that notions of cognition, or intellect, are far more intertwined with social and emotional growth than earlier educational paradigms have allowed for. In other words, the best laid plans about the technical aspects of pedagogy are bound to fail unless the growth of the whole person – social, emotional, moral, spiritual and intellectual, is the pedagogical target. Teachers and educationalists will**

find that this handbook provides evidence, culled from both research and practice, of the beneficial effects of such a 'values and wellbeing' pedagogy.

Teaching American Indian Students is the most comprehensive resource book available for educators of American Indians. The promise of this book is that Indian students can improve their academic performance through educational approaches that do not force students to choose between the culture of their home and the culture of their school. This multidisciplinary volume summarizes the latest research on Indian education, provides practical suggestions for teachers, and offers a vast selection of resources available to teachers of Indian students. Included are chapters on bilingual and multicultural education; the history of U.S. Indian education; teacher-parent relationships; language and literacy development, with particular discussion of English as a second language and American Indian literature; and teaching in the content areas of social science, science, mathematics, and physical education.

Because what we do in staff development can best be understood in terms of Contexts, Strategies, and Structures, the remainder of the book features distinguished educators who write from their own unique experiential and theoretical stances. Jacqueline Ancess describes how teachers in New York City secondary schools increase their own learning while improving student outcomes • Milbrey W. McLaughlin and Joel Zarrow demonstrate how teachers learn to use data to improve their practice and meet educational standards • Lynne Miller presents a case study of a long-lived school, university partnership • Beverly Falk recounts stories of teachers working together to develop performance assessments, to understand their student ' s learning, to re-think their curriculum, and much more • Laura Stokes analyzes a school that successfully uses inquiry groups. There are further contributions (including some from novice teachers) by Anna Richert Ershler, Ann

Lieberman, Diane Wood, Sarah Warshauer Freedman, and Joseph P. McDonald. These powerful exemplars from practice provide a much-needed overview of what matters and what really works in professional development today.

The Harlem Renaissance is the best known and most widely studied cultural movement in African American history. Now, in *Harlem Renaissance Lives*, esteemed scholars Henry Louis Gates Jr. and Evelyn Brooks Higginbotham have selected 300 key biographical entries culled from the eight-volume *African American National Biography*, providing an authoritative who's who of this seminal period. Here readers will find engagingly written and authoritative articles on notable African Americans who made significant contributions to literature, drama, music, visual art, or dance, including such central figures as poet Langston Hughes, novelist Zora Neale Hurston, aviator Bessie Coleman, blues singer Ma Rainey, artist Romare Bearden, dancer Josephine Baker, jazzman Louis Armstrong, and the intellectual giant W. E. B. Du Bois. Also included are biographies of people like the Scottsboro Boys, who were not active within the movement but who nonetheless profoundly affected the artistic and political statements that came from Harlem Renaissance figures. The volume will also feature a preface by the editors, an introductory essay by historian Cary D. Wintz, and 75 illustrations. Following other volumes in the *Learning to Read Critically* series, *Learning to Read Critically in Language and Literacy* aims to develop skills of critical analysis and research design.

In January 1966, Alan Napier became a household name on ABC's hit series *Batman* (1966–1968) as Alfred Pennyworth, loyal butler to the show's title character. This "overnight success" came after 16 years of stage work (and the occasional film) in his native England and 26 years of film and television work (and the occasional play) in the United States. In the early 1970s, Napier wrote an autobiography, detailing his childhood as a "poor relation" of the famous Birmingham political family the Chamberlains (Prime Minister Neville Chamberlain was a cousin), and his collaborations over the years with the likes of John Gielgud, Laurence Olivier, George Bernard Shaw, Noël Coward, Fritz Lang, Otto Preminger and Alfred Hitchcock. Almost 30 years after Napier's death, James Bigwood, who first read the manuscript in 1975 when interviewing the actor for a *Films in Review* profile, has prepared it for publication. This is Alan Napier's story in his own words, annotated and updated, with dozens of rare photographs.
