Features 9 colour illustrations from the Iron series: Mobile Command Station (MCS) Mark 6 SU 401 Fighter X.77 Laser Pistol Ischian Clover Leaf Laser Rifle Ischian Light Cruiser Battleship John F. Kennedy Ischian Battleship Lu-kshia LC5150 "Bullpup" Laser Carbine Please note: these images may not display correctly on all devices. Links to online images, most high resolution, are provided. Don't miss the opportunity to download Running, prequel to the Iron series, FREE on Google Play. Book 1: Too Bright the Sun A man hell-bent on revenge for the death of his friend, in battle! Seeking revenge for the death of a friend ten long years ago, Major Jake Nanden has pursued his own personal demons with an almost religious fervour through life and through battle. He is a soldier so highly decorated for bravery that his fame reaches far beyond the desolate Jupiter moon, Io, where his battalion is stationed. His victories in the Jupiter Wars are hollow though, for he is a man scared of his own soul. His life seems to be a trap from which he cannot escape. His is the Replicant Company, and replicants, or clones, are despised by all. Book 2: Unknown Place, Unknown Universe Three rookie space cadets crash on an unknown planet with aliens hot on their tail! While a dissident alien scientist struggles to control time, he discovers that his wife will betray him. His favourite student discovers a way to see into the past but find himself surrounded by enemies in a complex, fragmenting culture. Meanwhile, Stone, douchebag son of Iron Cross winner Jake Nanden, a nerd and a feminist from the Space Fleet Academy crash-land on an unknown planet after falling through a worm-hole in this gripping and visionary science fiction thriller. Called Anubians by humans, the jackal-headed aliens are now revealed as Ischians but they are hiding something on this unknown planet in an unknown universe. Stone's world is shattered while he tries to escape and warn Earth of danger. Book 3: Worlds Like Dust Domes now cover Earth's big cities and soon a force field will trap Earth inside! The jackal-headed Ischians are here! When General Jake Nanden retired from the USAC, he could never have guessed that his greatest battle was still to come. Since then, he has joined a spiritual cult called the Blue Path, trying to establish communication with a few peaceful Ischians. But now his world has been torn apart; his wife and youngest son have been killed, probably his eldest too and the Los Angeles and Washington citizens sweat it out under inescapable alien domes. His son, Stone, warned him of the invasion and he joined up with Gary Enquine to form a rudimentary resistance network. Now, they must find a way to rise up and defeat the conquerors of Earth! Nanden must escape and unite the remaining human and clone forces, scattered across the Solar System. Likened to a cross between Blade Runner and Paths of Glory, you simply must read this beautifully constructed, intensely dark and powerful Science Fiction thriller Series, if you love Phillip K. Dick and Isaac Asimov. Character interview with Jake Nanden. Name (s): Jake Nanden Age: 34 Please tell us a little about yourself. I am 5'11', dark hair, short - Army cut, slightly curly. Green eyes. Describe your appearance in 10 words or less. Getting middle aged, slightly paunchy with drying skin - like paper in places - except my mech arm. That's synthetic skin on there and as smooth and supple as the day it was sprayed on. I even had mine tattooed but don't tell anyone. Would you kill for those you love? I kill every day - most days - to keep my culture intact. I would say that is killing for those I love. Of course there is a moral code... And as a soldier the moral code is almost everything. After a while... killing... it sometimes seems to be the only thing you have left. Family are too far away. Keywords: ancient egypt novels, ancient history fiction, black holes and time warps, Anubis book, wormhole books, scifi, dystopia, thriller, war, Io, Jupiter, iron, cross, android, robot, cyborg, valour, gallant, Greg Bear, lost starship, pods, tanks, armour, military, assault, starship troopers, blade runner, Clarke, Asimov, medal, mechanical arm, first contact, violent ,dog-like, replicants, genes, manipulation, aliens, Anubis, jackal, paths of glory, gears of war, dystopia, clones,

Rocky Mountain Gardener's Handbook includes 300 plant profiles organized under ten plant categories, from annuals to vines. Each plant profile page includes three recommended plants, with full-color images, helpful icons for sun and shade requirements, and planting and growing information. Twelve months of around-the-garden maintenance information for each plant category assists the gardener with what to do to maintain a Rocky Mountain garden. Includes helpful charts, illustrations, and full-color plant images.

From #1 New York Times Bestselling Author Susan Wiggs "...sweet, crisp and juicy."—Elin Hilderbrand "A powerful story of love, loss, hope and redemption."—Kirkus, Starred Review Tess Delaney makes a living restoring stolen treasures to their owners. People like Annelise Winther, who has just been reunited with her mother's long gone necklace, worth a sum that could change her life. To Annelise, whose family was torn apart during WWII, the necklace represents her history, and the value is in its memories. But Tess's own history is filled with gaps: a father she never met, a mother who spent more time traveling than with her daughter. Then the enigmatic Dominic Rossi arrives on her San Francisco doorstep with the news that the grandfather she never knew is in a coma and that she's destined to inherit half of his apple orchard estate called Bella Vista. The rest is willed to Isabel Johansen, the half-sister she didn't know she had. With Dominic and Isabel by her side, Tess discovers world where family comes first and the roots of history run deep. A place where falling in love is not only possible, but inevitable. And in a season filled with new experiences, Tess begins to see the truth in something Annelise once told her: if you don't believe memories are worth more than money, then perhaps you've not made the right kind of memories. Wiggs deftly weaves a narrative that takes the reader from present day California to Denmark during WWII to tell a story of family ties both old and new—and the moments that connect our hearts. Read The Bella Vista Chronicles by Susan Wiggs: Book One: The Apple Orchard Book Two: The Beekeeper's Ball

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

I've been a practicing psychologist in an outpatient setting for over thirty-two years. I run into the same conditions or "issues" almost every day (addictions, anxiety, ADHD/learning disabilities, assertiveness, children's behaviors, mood disorders, relationships and self-esteem). Anger management is important unto itself, but plays a very strong role in the other areas. Usually, when people can control their anger, the problems in each of these groups diminish. Anger management is a skill that everyone needs and uses to some degree, in just about every situation. This webpage contains information about my ebook on this subject, anger management techniques, anger management tips and anger management training. It turns out anger management can be taught to almost everyone. I've taught it to children, as well as adults. I've taught techniques to schizophrenics and to people with out-of-control mood disorders. Anyone can learn about this subject and anyone can learn to manage anger. You may be having trouble in your relationship, or blowing up at work. You may be referred by the courts, which happens if your anger leads to excessive drinking or fighting, custody issues, etc.. I've read most of the pop-psychology literature on anger management over the last 30 (+) years. Many of the books are excellent. They, like this ebook deal with a variety of anger management aspects. Anger has to do with being out of control of reactions, or about being out of touch with feelings. Type I anger people "lose it" and act out. Type II anger people lose it and "act in." Type I anger people explode, while Type II anger people implode. There are characteristics and symptoms of each, which I list and explore. Type II anger is a NEW concept. You won't find this described anywhere else, because it's my original idea. People have a long list of reasons not to control their anger, which is addressed. There are lots of popular or other internet sources for anger management techniques. I list them. These work, sort of, and if they work for you--good. Your anger problem is not that serious. But there are deeper, psychological approaches that fix, not mollify the problem. To effectively manage anger (either Type I or Type II), one has to get to the "deep stuff." Most of the pop-psychology books are too long. I've boiled down the concepts in these books into clear, manageable steps. I've made this as easy to understand as is humanly possible, combining what I've read with what I've learned from clients. Plus, there is a discussion on the newest ways to conceptualize anger mismanagement, relative not just to psychology, but to cognitive behavioral techniques and mindfulness. Like my other ebooks, this one has no fat. Think of it as a "Cliffs Notes" publication. It's "sort of" a quick read (about an hour or two). I have to explain a few new terms, because there are new ideas and the terms you probably already know are put together in new ways. The theory I espouse is different from standard "behavior change" books. It works better and is very simple to understand. That's the point of an ebook. My research has not turned up another ebook that does what mine does.

Hilarious and hair-raising true tales of office debauchery from the lawyer who gets paid to clean up the mess. Try to imagine the following workplace scenarios: two employees having hot and heavy sex in an open cubicle in full view of their coworkers. A boss conducting a business meeting while wearing nothing but a strategically-placed towel. Employees using Craigslist to arrange sexual trysts with hookers on company time. Breast-flashing. Oral sex solicitation via office e-mail. Impossible? Unbelievable? Richard Burton has tales you won't believe actually happened over his decades spent as the attorney hired by companies to protect them when their employees act out. Employees Gone Wild collects some of the most outrageous and absolutely-true stories (names changed to protect the guilty of course) from Burton's years on the job, along with his indispensable practical advice on how companies and the people that work for them can avoid the same pitfalls. Hilarious and eye-opening in the same breath, dozens of cartoons give Employees Gone Wild a light tone perfect for the coworker with a sense of humor. It's also a great excuse for anyone that's received a slap on the wrist from their job: Hey, at least I'm not as bad as that guy!

How can one person change everything? \*\*\*Don't miss Amelia Mandeville's heart-stopping new novel - THE MISSING PIECES OF ME is available to pre-order now\*\*\* 'It truly broke my heart and put it back together again' Reader review 'This story is beautiful, it has touched my soul and has lit up my heart' Reader review 'You literally feel every emotion on the spectrum along with these characters' Reader reviewer \_\_\_\_\_ Zoe and Tristan couldn't be more different - which is precisely why, when they meet in a hospital waiting room, Zoe becomes determined to get to know Tristan more. But Tristan is struggling with a sadness no one seems to understand, least of all himself. Giving up isn't in Zoe's nature, and as the two spend more time together, it seems like Tristan might be coming around to seeing the world the way she does. Excellence: Every Classroom, Every Lesson, Every Day is the story of the transformation of a principal from new and inexperienced but good-hearted to a highly effective leader and motivator. The realistic fiction story is based upon the author's experience coaching administrators and working with both underperforming schools and high-achieving schools while weaving in lessons from foundational leadership books from both business and education. The principal, Dr. Esposito, demonstrates throughout how she uses these lessons to solve common problems in schools as she gradually changes her leadership philosophy and style. Her lessons come from a variety of leadership books including Drive, How to Win Friends and Influence People, Practice Perfect, The Art of Influence, Radical Candor, and many others.

Themes: Hi-Lo, Life lessons, values, identity, justice, neighbors, endangered animals, theft, mystery, snakes. Just 32-pages each- paperback books for struggling readers power-packed with reading employment. Here are 40 exciting hi-lo novels with various themes guaranteed to keep your students turning the pages until the very end! Did Jack's disappearance have anything to do with Mr. Devorka's snakes? Maybe Gus didn't know his missing friend as well as he thought he did.

Brush up on the next generation of MacBooks Learning how to use a new laptop can be as challenging as trying to decipher ancient hieroglyphics-but don't let that intimidate you! MacBook For Dummies, 6th Edition is your straightforward guide to all things MacBook, including setting up and configuring your laptop, navigating your way around the desktop, familiarizing yourself with the operating system, working with files and folders, using the Finder and Finder Tabs, working with Dashboard, Mission Control, and Spaces, searching your computer with Spotlight, surfing the Internet with Safari, syncing your data with iCloud, communicating with friends and family with email, Messages, and FaceTime, discovering new apps, and creating and printing documents. Additionally, this approachable, yet comprehensive text offers insight into working with Pages, Numbers, and Keynote, and more. MacBooks are incredibly popular for both their sleek, appealing hardware and easy to use, relevant software. Whether you're a PC convert or just want to brush up on the latest updates to the MacBook line, this helpful book gets you started in a snap. Get up and running on your new MacBook by starting with the basics Share and protect your data with insight regarding networking, sharing access and information, connecting with wireless devices, backing up and restoring your files, and troubleshooting common problems Satisfy your hunger for entertainment with iTunes, iPhoto, iMovie, and GarageBand Explore both your MacBook's hardware and software, including the latest operating system, iLife, and iWork versions MacBook For Dummies, 6th Edition takes you on a tour of your next-generation MacBook, offering you the information you need to get your new laptop up and running.

Two successful entrepreneurs offer a no-nonsense guide to the qualities that make people suited to starting their own businesses. In today's world of startup companies, entrepreneurs are disrupting industries and fueling the economy like never before. It's an exciting life where no day is quite like the next. But along with the adventure comes a lot of uncertainty, and not everyone is suited to the entrepreneurial life. So, what does it take? In Self Employed, Joel Comm and John Rampton detail 50 different qualities found in people who could do well as entrepreneurs. Having started, managed, and sold several multimillion-dollar businesses, Comm and Rampton understand what it takes to succeed in this highly competitive realm. The 50 qualities they outline provide a framework for anyone to decide if they might make it in business on their own. If you're wondering whether the entrepreneurial lifestyle is right for you, or you want to know for sure that the business you've already started is suited to your temperament, this book is for you!

**Mary Shane comes home from school one day to find her mother beaten to unconsciousness, this leads her on a perilous journey to find her father, the man that has spent her entire life on the run, always nothing more than a shadow. She must play his deadly game, become the very darkness he hides in, if she ever wants to have a chance at the love she found and the normal life she used to take for granted. As Mary Shane makes her way into the deadly world her father lives in, a world where people have seemingly magical powers and always seem to be one step ahead of you, she discovers that maybe his frequent disappearances and constant paranoia were justified. She finds herself forced to make dangerous decisions and do things she never in her worst nightmare had to face. With the government chasing her every footstep, she must find her father before they do if she ever hopes to survive this wild ride and earn the right to live. She discovers that everything she's ever experienced is because of her father and as she begins to put the pieces together she wonders if there is more to this story than anyone else knows.**

**In this unique series of discourses Osho unravels the ancient text, The Secret of the Golden Flowers, which he describes as a synthesis of all the great religions - the essence of Taoism. More than 2,500 years old, this remarkable text continues to be as relevant today as it was to its contemporaries. Osho interprets it as the core of all religions and spiritual paths - a stripped-back ideal where spiritual seekers around the world are placing themselves now. The Secret of the Golden Flower belongs to no one in particular - it belongs to us all. The Secrets of Secrets is a timeless collection of Osho's talks on The Secret of the Golden Flower. Osho demystifies all the important terms used by the Chinese mystic Lu Tsu, and shares his meditation exercises. He also outlines the qualities of animus and anima - our male and female energies - as delineated by Lu Tsu, and explains the importance of their relationships inside each of us. The book includes many valuable techniques and gives specific instructions on the Taoist Golden light meditation - to harmonize the male and female elements and transmute sexual energy.**

**Discover how empirical researchers today actually think about and apply econometric methods with the practical, professional approach in Wooldridge's INTRODUCTORY ECONOMETRICS: A MODERN APPROACH, 6E. Unlike traditional books, this unique presentation demonstrates how econometrics has moved beyond just a set of abstract tools to become genuinely useful for answering questions in business, policy evaluation, and forecasting environments. INTRODUCTORY ECONOMETRICS is organized around the type of data being analyzed with a systematic approach that only introduces assumptions as they are needed. This makes the material easier to understand and, ultimately, leads to better econometric practices. Packed with timely, relevant applications, the book introduces the latest emerging developments in the field. Gain a full understanding of the impact of econometrics in real practice today with the insights and applications found only in INTRODUCTORY ECONOMETRICS: A MODERN APPROACH, 6E. Corporal Sam Deland has a lot on his plate. He's a dog lover, single dad, jet pilot, likes girls and his tight knit state police squad is buried under the weight of an unsolved brutal double murder that has stunned his quiet upstate community. The pressure mounts as Sam's team tracks the bad guys into Philadelphia's tough, gritty streets. The characters are the real story though, and with humor, hard work and luck, Sam's team draws the reader's mind to unexpected and surprising places. Realistic police work with a rich descriptive character and scene portrayal is carefully crafted into a story that you will not want to put down.

Susan Perabo's short-story collection, Who I Was Supposed to Be, was named a Best Book of 1999 by the Los Angeles Times, The Miami Herald, and the St. Louis Post-Dispatch. The Boston Globe proclaimed the debut "a stunning introduction to a fresh new literary talent." Now Susan Perabo returns with The

Broken Places, her eagerly anticipated novel about love and honor and how the aftermath of one terrifying night -- and one heroic act -- affects a close-knit family. Twelve-year-old Paul Tucker knows his family is something akin to royalty in small-town Casey, Pennsylvania. His father, Sonny, is a dedicated career fireman, in line for the position of chief, long held by Paul's late grandfather, a local legend whose heroics continue to occupy the hearts and minds of all who knew and worked with him. Paul's mother, Laura, is a math teacher at the high school; Paul is sometimes annoyed by her worries over him (and her apparent lack of worry over his father), but his life is generally untroubled, his future bright, his time measured by sport seasons. But on a windy October day, the collapse of an abandoned farmhouse forever alters the fates and perceptions of Paul, his family, and those closest to them. Sonny and the other Casey firemen attempt a dangerous rescue to reach a teenager buried under the rubble, and when Sonny himself is trapped by a secondary collapse, Paul, his mother, and the crowd of onlookers believe the worst. The wait is excruciating; it's baby Jessica all over again, but this time the "innocent victim" is sixteen-year-old Ian Finch, a swastika-tattooed hoodlum who may have brought the house down on himself while building bombs. Still, when Sonny emerges from the rubble hours later, the maimed teenager in his arms, the rescue becomes a minor miracle and a major public relations event, a validation of all things American and true. Sonny is immediately hailed as a national hero. And Paul's life is suddenly, and irrevocably, changed. Beyond the limelight, the parades, and the intrusion of the national media into a quiet and predictable life, the Tucker household balance is upset. And Ian Finch's curious and continued involvement in Sonny's life creates a new and troubling set of hurdles for Paul to overcome. Somehow, though his father has been saved, he continues to slip through Paul's fingers. Secrets, lies, and changing alliances threaten Paul's relationship with his father and his mother and his understanding of what holds a family -- and a town -- together. The Broken Places is a brilliant meditation on the psychology of heroism, the definition of family, and the true meaning of honor. With pitch-perfect dialogue, subtle but stunning insights, and a dazzling ability to uncork the quiet power of each character, Susan Perabo's The Broken Places uncovers and celebrates the unsettling truths of human nature.

Offers architects and creative services professionals exclusive insights and strategies for success from the former CEO of HOK. Designing a World Class Architecture Firm: The People, Stories and Strategies Behind HOK tells the history of one of the largest design firms in the world and draws lessons from it that can help other architects, interior designers, urban planners and creative services professionals grow bigger or better. Former HOK CEO Patrick MacLeamy shares the revolutionary strategies HOK's founders deployed to create a brand-new type of architecture firm. He pulls no punches, revealing the triple crisis that almost bankrupted HOK and describes how any firm can survive and thrive. Designing a World Class Architecture Firm tells the inside story of many of HOK's most iconic buildings, including the National Air and Space Museum, Moscone Convention Center, Oriole Park at Camden Yards, the Houston Galleria and the reimagined LaGuardia Airport. Each chapter conveys lessons learned from HOK's successes —and failures— including: The importance of diversifying to depression-and-recession-proof your firm The benefit of organizing your firm around specialized leaders and project types The difference between leading and managing your people The value of simple financial metrics to ensure your firm's health and profitability The "run toward trouble" strategy which prevents problems from ballooning MacLeamy delivers his advice via inspirational stories such as how HOK survived when its home office in St. Louis went up in flames and humorous stories, like the time an HOK executive was mistaken for royalty on a trip to Saudi Arabia. In this tell-all guide, the driven architecture or design professional will find the tools needed to evolve or grow any firm.

1977. New York City. Cool and crime-ridden, cheap and wild. Bruce Van Dusen shows up in town with a film degree and \$150,000. He wants to make movies. The only ones anyone will pay him to make? Little ones. Thirty seconds long. Commercials. He has an idea what he's doing and the money sucks. But he's a director. He gets hired by a client on life support in the most depressing neighborhood in New York. Gets peed on by a lion. Explains peristalsis to a Tony winner. Makes a movie and goes to Sundance. Goes back to New York to make movies when it bombs. Keeps hustling, shooting anything. Is an a\*\*hole, pays the price, finally learns when and how to be an adult, and becomes one of the industry's stars. Years go by and it's not what he expected. It's harder, weirder, and funnier. But it works out. It worked out great, actually.

James Emery is struggling to balance his various roles as husband, father, and plant manager for Modern Products Manufacturing. When an accident occurs at the plant, leaving people seriously injured, James feels responsible. The accident is the impetus for major changes in both James' personal life and his career. In his relentless pursuit to create lasting change he faces a long road of challenges and missteps while facing opposition from his subordinates and pressure from his superiors. James gathers allies by building a network of employees who support his plans. In his struggles to create a safe place for employees to work while satisfying his customers with improved performance, he begins his journey to the Precision Domain. Join James as he embarks on a journey of lasting change.

"Tight end," noun: 1. a position in American football, 2. NFL star Marcus James, 3. what any hot-blooded woman can't stop thinking about every time Marcus walks by. Bree Novak is so close to earning her Ph.D. she can taste it, but she's supposed to be writing her dissertation, not giving lectures while her advisor slacks off. The semester gets even crazier when veteran tight end Marcus James—Bree's celebrity crush—enrolls in her "Intro to Physics" class. The man's even hotter in person than he looks on Sunday Football. So why is Bree hoping he drops out? Maybe it's because Marcus, with his cocky smile and chiseled body, is the ultimate distraction. . . . Drafted out of college years ago by the Milwaukee Dragons, Marcus is taking advantage of a season-ending kick-off to finish his bachelor's degree. Plus, thanks to a required science credit, he's also getting to know the geek goddess who teaches physics. With brains and beauty, Bree is living proof that opposites attract. She's even kind enough to give Marcus extra help with material, as if she didn't have anything better to do. And the more time Marcus spends with her, the more he realizes he's not just crushing on his teacher—he's falling for her. Don't miss any of Liz Lincoln's mouthwatering Milwaukee Dragons novels, which you can read together or separately: ON THE LINE • SWAGGER • HOME FIELD ADVANTAGE

It's the tale of Saint George and the Dragon set in three dimensions. Prince George solves fairy puzzles, races giants and performs miracles - but in the end his faith allows him to free Larkwood from evil and heal his father.

Products and services will change with demand, but one thing that will always be required for a company's success is having the right people working hard for you. As a manager, are you cultivating this vital resource? Is there more you could be doing? In this accessible and practical playbook, HR expert and author Paul Falcone helps take the guesswork out of this crucial element for success, showing managers how to:

- Identify the best and brightest talent
- Hire for organizational compatibility
- Address uncomfortable workplace situations
- Create an environment that motivates
- Retain restless top performers
- Delegate in a way that develops your staff
- And much more!

Every HR executive has a laundry list of things they wish managers knew--best practices that would enable the entire organization to operate more effectively. Falcone's book *75 Ways for Managers to Hire, Develop, and Keep Great Employees* has encapsulated all of this for you in a single indispensable resource!

This book constitutes the refereed proceedings of the Fifth Theory of Cryptography Conference, TCC 2008. It covers the paradigms, approaches and techniques used to conceptualize, define and provide solutions to natural cryptographic problems.

**This book balances the behavioral and database aspects of customer relationship management, providing students with a comprehensive introduction to an often overlooked, but important aspect of marketing strategy. Baran and Galka deliver a book that helps students understand how an enhanced customer relationship strategy can differentiate an organization in a highly competitive marketplace. This edition has several new features: Updates that take into account the latest research and changes in organizational dynamics, business-to-business relationships, social media, database management, and technology advances that impact CRM New material on big data and the use of mobile technology An overhaul of the social networking chapter, reflecting the true state of this dynamic aspect of customer relationship management today A broader discussion of the relationship between CRM and the marketing function, as well as its implications for the organization as a whole Cutting edge examples and images to keep readers engaged and interested A complete typology of marketing strategies to be used in the CRM strategy cycle: acquisition, retention, and win-back of customers With chapter summaries, key terms, questions, exercises, and cases, this book will truly appeal to upper-level students of customer relationship management. Online resources, including PowerPoint slides, an instructor's manual, and test bank, provide instructors with everything they need for a comprehensive course in customer relationship management.**
