to acknowledge and confront this neglect and how much we can learn from focusing our attention on stuff. The book opens with a critique of the concept of superficiality as applied to clothing. It presents the theories that are required to understand the way we are created by material as well as social relations. It takes us inside the very private worlds of our home possessions and our processes of accommodating. It considers issues of materiality in relation to the media, as well as the implications of such an approach in relation, for example, to poverty. Finally, the book considers objects which we use to define what it is to be alive and how we use objects to cope with death. Based on more than thirty years of research in the Caribbean, India, London and elsewhere, *Stuff* is nothing less than a manifesto for the study of material culture and a new way of looking at the objects that surround us and make up so much of our social and personal life.

*From pre-First World War Warsaw to the New York of the 1930s, Nobel Prize-winner Isaac Bashevis Singer traces the early years of his life in this autobiographical trilogy. In *A Little Boy in Search of God*, he remembers his bookish boyhood as the son of an Orthodox rabbi, equally absorbed in science, philosophy and cabbala. Later, the pursuit of women came to obsess him almost as much as the pursuit of knowledge, and in *A Young Man in Search of Love* he chronicles the intricacies of his first love affairs. When he emigrated to the United States from Poland on the eve of the Second World War loneliness and depression overwhelmed him, and he relives those dark years in *Lost in America*. This book will inform and educate the general public on illegal immigration and its effects not only on those directly involved in the process, but on the general population as well. Writing about it in the context of its impact on contemporary society seems to be the best way to do it. How the different media view it, the degree to which the public has been influenced to view the question of immigration in the United States, Europe and elsewhere are included in the issues discussed, analyzed and elaborated on, as we attempt to look at the process of immigration, legal and illegal, from the standpoint of its impact on society as a whole. If some of the stories seem to be familiar, it is because the people are real, and the things they talk about actually happened. They are essentially true stories told by people who want to share their real-life experiences. Only in a few instances have names been changed to protect the identities of those involved.

### 20 Most Asked Questions about the Amish and Mennonites

Despite the key role played by second language acquisition (SLA) courses in linguistics, teacher education and language teaching degrees, participants often struggle to bridge the gap between SLA theories and their many applications in the classroom. In order to overcome the 'transfer' problem from theory to practice, Andre Nava and Luciana Pedrazzini present SLA principles through the actions and words of teachers and learners. *Second Language Acquisition in Action* identifies eight important SLA principles and involves readers in an 'experiential' approach which enables them to explore these principles 'in action'. Each chapter is structured around three stages: experience and reflection; conceptualisation; and restructuring and planning.

Discussion questions and tasks represent the core of the book. These help readers in the process of 'experiencing' SLA research and provide them with opportunities to try their hands at different areas of language teachers' professional expertise. Aimed at those on applied linguistics MA courses, TESOL/EFL trainees and in-service teachers, *Second Language Acquisition in Action* features:

- Key Questions at the start of each chapter
- Data-based tasks to foster reflection and to help bridge the gap between theory and practice
- Audiovisual extracts of lessons on an accompanying website
- Further Reading suggestions at the end of each chapter
