**Directly linked to Oxford's bestselling DP Psychology resources, this new Course Preparation resource thoroughly prepares students to meet the demands of IB Diploma Programme Psychology. Ideal for students who have studied non-IB courses at pre-16 level, the text introduces learners to the IB approach, terminology and skills. The focus for this resource is to build understanding of the key concepts and skills and use the DP content to introduce and articulate the bigger concepts and skills so that students are prepared for their Diploma course. Topics and concepts will be introduced and covered using real world examples, case studies and applications. Content will be formally scaffolded to help students both build skills and content knowledge so that they are well prepared for their course and absorb DP knowledge more effectively. This book does not replace the course book content for DP but is in line with the latest DP syllabus updates including assessment details, subject terminology and syllabus content.**

**An assistant examiner and teacher explains to students in simple, practical steps how to earn full marks on their individual exploration for all IB mathematics courses. This book is intended for students taking either "Applications and Interpretation" or "Analysis and Approaches" at the SL or HL level. This book has been updated with the new guides. About the Author Mr. Slosberg has been teaching IB DP Mathematics since 2004, and has been an assistant examiner in math for the IB since 2014. He has written this book in the hopes that his own students and students around the world will use it to earn full marks on their own individual explorations.**
