April 4, 2014, the Houston Rockets were in trouble. With the arrival of superstar center Dwight Howard, the Rockets were looking to win a championship for the first time in 20 years. Yet while the 2013-14 NBA season had gone smoothly for the Rockets, a potential catastrophe loomed on the horizon. They had just lost three straight games for the first time all season. Dwight Howard was not playing due to ankle issues. And if that was not bad enough, the Oklahoma City Thunder, led

by probable MVP Kevin Durant, were in town. The Thunder had defeated the Rockets in all three of their earlier games, blowing them out by 31 points in the first contest. Houston faced the very real possibility of losing the first-round home court advantage that they fought so hard all season to earn. But James Harden would have none of it. He knew how important it was for the Rockets to break the three game losing streak, and he also knew that Houston would clinch a playoff spot with a win. So

he got to work immediately. On the first possession, he passed the ball so Terrence Jones could hit a wide-open jump shot. On the second possession, he drove the ball in for a layup. Whenever Houston needed points, Harden was there hitting 3-point shots, drilling free throws, and charging to the basket. His former teammate Kevin Durant finished with 28 points for the night, his 40th straight 25-point game - but it was James Harden, with 39 points, who led Houston to the huge 111-107 win. As

the seconds ticked off the clock, he hugged his teammates, and then went over to acknowledge another former Thunder teammate, Serge Ibaka, before walking off the court. The Rockets had just clinched the playoffs, and Harden had shown another example of how he is one of the best shooting guards in the NBA today.

The path towards the life of a professional athlete, particularly in the NBA, takes many forms and shapes. Others have had it easy since they were young. Some showed potential early on but could not live up to it. And there are even some that never showed any hint of greatness within them but would eventually turn out to be better than advertised. Because journeys differ, not

everyone gets to experience the full-frontal media-exposed life towards stardom that heralded basketball stars such as Wilt Chamberlain, Shaquille O'Neal, and LeBron James had ever since they showed potential for stardom at an early age. Similarly, not everyone goes through the process of long-term development that late-blooming players such as Jimmy Butler, Giannis Antetokounmpo, and Draymond Green have had to undergo. But there are those types of journeys that are as rare as they come. One case in point was how Jeremy Lin was able to make a name for himself in the NBA when the rest of the league thought he was merely a novelty player. Born in the United States to Taiwanese parents, Jeremy Lin is as Asian as they come,

but grew up as an American. With that in mind, Lin was practically a basketball ambassador for Asia, where more than half of the world's population resides. His Taiwanese roots made him a similar player to that of Yao Ming because of how they bridged America with the Asian market. However, what made him more unique was that he was raised in an American setting whereas some of the other international ambassadors of the NBA grew up in their respective home countries. Because of this, Lin became the very first American of Chinese or Taiwanese descent that made it as far as the NBA. York City, New York to former world ranked French tennis player, Yannick Noah, and 1978's Miss Sweden Cecilia Rodhe. Having parents from two different countries and being born in a third country is an interesting situation. You can have three citizenships (in this case French, American and Swedish), and you can consider several languages to be your native one while calling three different places home. Tennis fans can tell you what type of player Yannick was. Even though he was never World

No. 1, he was one of the greatest players in the 80's at World No. 3. Yannick even won one Grand Slam at the French Open in 1983. More importantly for this story, Yannick's character on the court has fueled Joakim's passion and energy for his game. Yannick isn't the only sports person in the family. Joakim's grandfather, Zacharie Noah was a professional soccer player who won the Coupe of France in 1961. Zacharie lives in Cameroon where Joakim also likes to visit. Even though Joakim

was born in the United States, most of his childhood was spent in his father's homeland of France. He lived in Paris until 1998 where he finished elementary school and then moved back to New York City. He respects the influence that both cities played on his development. Part of his toughness was a result of growing up in those cities and Noah embraces it. In 1836, two missionaries and their wives were among the first Americans to cross the Rockies by covered wagon on what would become the Oregon Trail. Dr. Marcus Whitman and Reverend Henry Spalding were headed to present-day Washington state and Idaho, where they aimed to convert members of the Cayuse and Nez Perce tribes. Both would fail spectacularly as missionaries. But Spalding would succeed as a propagandist, inventing a story that recast his friend as a hero, and helped to fuel the massive westward migration that would eventually lead to the devastation of those they had purportedly set out to save. As Spalding told it, after uncovering a British and Catholic plot to steal the Oregon Territory from the United States, Whitman undertook a heroic

solo ride across the country to alert the President. In fact, he had traveled to Washington to save his own job. Soon after his return, Whitman, his wife, and eleven others were massacred by a group of Cayuse. Though they had ample reason - Whitman supported the explosion of white migration that was encroaching on their territory, and seemed to blame for a deadly measles outbreak - the Cayuse were portrayed as murderous savages. Five were executed. This fascinating, impeccably researched narrative traces the ripple effect of these events across the century that followed. While the Cayuse eventually lost the vast majority of their territory, thanks to the efforts of Spalding and others who turned the story to their own purposes, Whitman was celebrated well into the middle of the 20th century for having

Future An excerpt from the book: The shooting guard position has always been one of the more difficult spots to play in the NBA. Shooting guards are required first and foremost to be among the best scorers on their team since their primary role of the team is to, of course, shoot and make their shots. While scoring the ball may not sound like the most difficult task to do, what makes the shooting guard a difficult position in the NBA is the level of skill required to be elite. As far as the history of the league is concerned, there have not been a lot of great shooting guards compared to centers, point guards, and forwards due to the relative difficulty the position requires for the player to be elite. But even though there have not been a lot of great shooting guards in the NBA's history, the best of the best happen to

Download Free James Harden The Inspiring Story Of One Of Basket

be those that play that position. Since the dawn of the league, the first great shooting guard was the NBA logo himself, Jerry West. Then there came guys like George Gervin and Pete Maravich during the dark 70's era of the league. Come the 80's and 90's, Reggie Miller and Clyde Drexler dominated the position. Those that came after them were Kobe Bryant, Ray Allen, Vince Carter, and Dwyane Wade. And Michael Jordan, the greatest player to have ever played the game, is known as a shooting guard. There have not been a lot of great shooting guards, but they were always the best of their respective eras. Taking center stage in this story is the African Company, a black theater troupe that exemplified the new spirit of experimentation that accompanied slavery's demise. For a few short years in the 1820s, a group of black New Yorkers, many of them ex-slaves, challenged pervasive prejudice and performed plays, including Shakespearean productions, before mixed race audiences. Basketball Anthony Davis' Legacy & Future An excerpt from the book: In order to fully understand Anthony Davis' rise to stardom, we need to take a look at his journey. It is important to know where he came from in order to understand his current situation. Anthony Davis is one of the most intriguing players to have ever played in the NBA. He does, however have a lot of improving to do. By simply looking at Davis' appearance, you would not be able to tell that he was not always enormous growing up. In high school, he was only (at most) 6'3, until an 8-inch growth spurt occurred. Unlike most players who have huge growth spurts, the little

ex-point guard kept his dribbling and playmaking skills, but increased his size. I guess you can say that Davis took his talent to new heights. Anthony Davis attended a not-well-known high school (Perspectives High School), where he did not receive much attention until his rapid growth spurt. He was so used to shooting the jump shot when driving in the lane, and now started dunking on people. He never had to really focus on blocking shots or having to back down his opponent on the offensive end. Davis had a lot of work cut out for him and was ready for the challenge. He had to learn how to become an inside presence and

quickly tried to do so. Swatting shot after shot and often stealing the ball from the opposing guards, Davis started to pick up speed. Only one Division 1 school decided to offer him a full scholarship (Cleveland State) and he was tempted to take it, but his dad advised him to be patient and more offers would come. His dad was right, and soon enough the whole nation was after him. Though some analysts only pegged Davis as the 6th or 3rd best prospect in the Nation, Davis was still receiving offers from notable schools and eventually joined the Kentucky Wildcats. how long he can hold to the title of

Since his near-MVP season in

Fellow 2005 NBA Draft point
guard Deron Williams challenged
Paul for years and repeatedly

has fallen off over the years, as he

now lacks the explosiveness that he used to overpower the smaller Paul. Derrick Rose won the MVP in 2011, but has never been the same thanks to multiple knee injuries. Stephen Curry has lit up the league with his three-point shooting, John Wall has unparalleled speed, and there are more great young point guards today than perhaps at any moment in NBA history. But while Chris Paul may lack their athleticism, no point guard in the league has his on-court knowledge. Eventually, one of those younger point guards will surpass the aging Paul, as time devours all things - with the

possible exception of the San Antonio Spurs. The legacy of Chris Paul will be written in the next few years, as his prime begins to reach his end. Will the point guard who puts up incredible numbers and leads a team night in and night out be able to secure that elusive championship? Will Paul secure his rank among the truly great point guards? And how long will this point guard be able to dominate his position? Until that day comes when someone surpasses, this generous, intelligent man, who has endured terrible and horrific losses, will showcase himself as possibly the

In the span of his young and promising career, Blake Griffin's flurry of electrifying, death defying, posterizing dunks have been his main source of fame. Measuring at 6 feet 10 inches and weighing 250 pounds combined with otherworldly athleticism and leaping ability; Griffin is an impressive physical specimen. Along with running mates NBA All-Star point guard Chris Paul and fellow dunking dervish DeAndre Jordan, Griffin is at the center of the moniker he himself coined for the team,

"Lob City". His humiliation efforts of fellow big men Timofey Mozgov, Kendrick Perkins and Pau Gasol have generated almost six million YouTube views. He won the NBA Slam Dunk Contest in 2011 by leaping over a car and then slamming the ball down while being serenaded by a choir singing R. Kelly's "I Believe I Can Fly". He has also been featured in numerous commercials and advertisements for brands such as Kia (who sponsors the slam dunk contest) and Subway. However, his best ability has also begotten his greatest criticism. Many basketball experts, including hall of fame power forward Charles Barkley; have dismissed Griffin of being a one-dimensional dunker. They claim that he doesn't have a refined post-up game, relies too much on his physical gifts and has limited basketball acumen. His poor free-throw shooting and playoff struggles so far haven't helped his case either. Even

contemporaries dislike his tough guy on-court persona, the way he looks at his opponents with a stone-cold expression after his dunks and his alleged constant flopping. Zach Randolph of the Memphis Grizzlies called Griffin an "actor" prior to a 2012 playoff matchup. Several figures in the history of the league have worked their way up from humble beginnings and the lowest posts to being star players or top names in the NBA through hard work and sheer dedication to their craft.
