

La Rosse Bizarre

Descriptions of imaginary buildings abound in late medieval and early modern texts in France. This book examines the reasons for their popularity and analyzes the way in which metaphors of the building were used by writers as a tools of persuasion. One such writer was Jean Lemaire (c.1473–after 1515) who used architectural metaphor both to praise his patrons and to advertise his own talents, while drawing on and transforming a tradition of writing popularized by his rhétoriqueur predecessors.

Explore the field of garden history with Early Canadian Gardening, an indispensable guide to horticulture and gardening practices in Upper Canada in the early nineteenth century. The book provides detailed descriptions of plants and seeds available at the time (many of which have evolved dramatically over the last 150 years) and examines not only which plants were grown at the time but also their value to pioneer gardeners and early settlers.

*This is the first full-length study in any language of the writings of a remarkable figure in French literary and cultural history, author of nine prose fiction works between 1958 and 1988. Despite establishment recognition and a popular mass-market following, Christiane Rochefort has hitherto received surprisingly little critical attention. Her fiction forms an easily approachable learning tool for all students of post-war French politics and culture; the bestseller, *Les Petits Enfants du siècle*, is a set text in schools and universities in the UK and USA. This novel of growing up in the working class high-rises of Paris, written in the language of the streets, provides a vivid, child-centred view of a young's girl's social, political and sexual awakening. The Novels of Christiane Rochefort looks at each novel in turn and applies close attention to the narrative sophistication and political subversion of the books. Certain contemporary themes run through her work: the status of children, language as instrument of oppression and subversion, homosexuality, incest, child abuse. Each chapter of this book provides in-depth cultural and socio-political background material, and delivers a study that will be of great interest and value to students across a wide range of literary and cultural disciplines.*

May 1968. Paris is awash with violence and public unrest. In a small cinema, where a surreal film is showing, another riot is taking place. Here, the enraged audience smashes up the auditorium, tear out the seats, and chase the film's director onto the street. This is the premiere of Jean Rollin's feature debut, *The Rape of the Vampire*. An outsider of French cinema, Rollin's films are unique and dreamlike. They offer tales of mystery and nostalgia, obsolescence and seductive female vampires with a thirst for blood and sex. It is a cinema at once strange, evocative and deeply personal. Funding his own projects, Rollin defiantly made the films he wanted to make and in so doing created a fantastique genre unlike any other. *The Nude Vampire*, *The Living Dead Girl* and *The Grapes of Death* are among those films now celebrated as the work of an auteur, one who confounds preconceived notions of 'Eurotrash' cinema. This book is devoted to the director and all his work, across all genres, including a nascent French hardcore pornographic film industry. Written with full co-operation from Jean Rollin, shortly before his death in 2010, it contains exclusive interviews and archive material.

Stephanie Corinna Bille, a Swiss short-story writer, playwright, poet, and novelist and winner of the 1975 French Prix Concourt, is often considered the major contemporary Franco-Swiss woman writer. As a writer, Bille excelled at rendering the woman's experience. She stands

out as an elegant writer, a compassionate observer of early twentieth-century Catholic rural life, and a precise painter of the beauty of the natural environment. In over thirty volumes of creative writing, she favored short narrative forms from five lines to eighty pages, exploiting her dreams and fantasies in the wake of the Surrealist revolution. Yet despite her many successes, little has been published about her life and work in English. In *The Transparent Girl and Other Stories* Monika Giacoppe and Christiane Makward have assembled and translated a magnificent collection of Bille's work that strives to fill this void. Within these pages they expose an English-speaking audience—many for the first time—to Bille's exotic, captivating, mystical, and sexually provocative stories, which will delight scholars of Literature, Francophone Studies, and Women's Studies.

Roman de la Rose

The Film Encyclopedia 7th Edition

A New French and English Dictionary

History has always been far more engrossed by problems of origins than by those of decline and fall. When studying any period, we are always looking for the promise of what the next is to bring. Ever since Herodotus, and earlier still the questions imposing themselves upon the mind have been concerned with the rise of families, nations, kingdoms, social forms, or ideas. So, in medieval history, we have been searching so diligently for the origins of modern culture, that at times it would seem as though what we call the Middle Ages had been little more than the prelude to the Renaissance. But in history, as in nature, birth and death are equally balanced. The decay of overripe forms of civilisation is as suggestive a spectacle as the growth of new ones. And it occasionally happens that a period in which one had, hitherto, been mainly looking for the coming to birth of new things, suddenly reveals itself as an epoch of fading and decay. The present work deals with the history of the fourteenth and fifteenth centuries regarded as a period of termination, as the close of the Middle Ages. Such a view of them presented itself to the author of this volume, whilst endeavouring to arrive at a genuine understanding of the art of the brothers van Eyck and their contemporaries, that is to say, to grasp its meaning by seeing it in connexion with the entire life of their times. Now the common feature of the various manifestations of civilisation of that epoch proved to be inherent rather in that which links them to the past than in the germs which they contain of the future. The significance, not of the artists alone, but also of theologians, poets, chroniclers, princes, and statesmen, could be best appreciated by considering them, not as the harbingers of a coming culture, but as perfecting and concluding the old.

Since the Roman de la Rose had tremendous influence on the poetry of the fourteenth century, particularly on the works of Deschamps, Machaut, Froissart, and Chaucer, Professor Fleming maintains that it is important for the modern reader to understand what this influential moral satire meant to readers of the medieval period. Basing his interpretation in part on iconographic analysis of the illuminations found in more than one hundred manuscript copies of the poem, he advances a "medieval" reading of the poem. Other tools used by Mr. Fleming to get at the meaning of the poem include a study of the mythographic tradition, a logical and rhetorical analysis of the text, and an examination of formal exegetical documents of the late Middle Ages, especially the Old French commentary on the Echechs Amoureux. Selon l'ANADI (American Nursing Diagnosis Association), le diagnostic de détresse spirituelle consiste en « une perturbation du principe de vie qui anime l'être entier d'une personne et qui intègre et transcende sa nature biologique et psychosociale ». La maladie, l'hospitalisation introduisent une rupture dans un projet de vie, et la dynamique spirituelle est alors essentielle dans le processus de guérison et dans la construction d'un nouveau projet de vie. Les soignants sont souvent démunis face à cette détresse spirituelle ressentie par les patients. Celle-ci ne doit pas être restreinte à une dimension religieuse, pas plus qu'elle n'est à placer dans le domaine du psychologique. À travers les notions de caring, un questionnement autour des concepts de sens, de valeur, de transcendance et d'identité et de nombreux exemples de situations rencontrées sur le terrain, l'auteur de cet ouvrage propose d'éclaircir les manifestations de la détresse spirituelle afin de permettre au soignant de la comprendre et de se positionner dans une attitude d'écoute accueillante. L'objectif est d'aider le

patient à retrouver un lien qui le rattache à sa vie propre, de lui redonner la capacité de se projeter dans l'avenir, de « savoir devenir ».
