When photographing people, you can have a great composition, perfect light, and the right camera settings, but if your subject doesn’t look right—if the pose is off—the shot will not be a keeper. Posing is truly a crucial skill that photographers need to have in order to create great photographs. She also discusses posing the face—with specific sections dedicated to the chin, jaw, eyes, and forehead—as well as posing hands. In the second half of the book, Lindsay dedicates entire chapters to posing specific subject matter: women, men, couples, curvy women, families and small groups, and large groups. In each chapter, Lindsay addresses that subject matter’s specific challenges, provides “go-to poses” you can always use, and covers how to train the eye to determine the best pose for your subject(s).
