The volume takes as its starting point the assumption that adapters cannot simply "transpose" or transfer one particular text from one medium to another. They must interpret, re-work, and re-imagine the precursor text in order to choose the various meanings and sensations they find most compelling (or most cost-effective); then, they create scenes, characters, plot elements, etc., that match their interpretation. These very relationships are the subject matter this collection seeks to explore. Poststructural theory is an ideal place to begin a rigorous and theoretically sound investigation of adaptation. As adaptation studies adopts a poststructuralist lens and defines this richer notion of intertextuality, some of its key assumptions will change. Adaptation scholars will recognize that all film adaptations are intertextual by definition, multivocal by necessity, and adaptive by their nature --

Everybody knows, and maybe even loves, a microgenre. Plague romances and mommy memoirs. Nudie-cutie movies, Nazi zombies, and dinosaur erotica. Baby burlesks, Minecraft fiction, grindcore, premature ejaculation poetry...microgenres come in all varieties and turn up in every form of media under the sun, tailor-made for enthusiasts of all walks of life. Coming into use in the last decade or so, the term "microgenre" classifies increasingly niche-marketed worlds in popular music, fiction, television, and the Internet. Netflix has recently highlighted our fascination with the ultra-niche genre with hilariously specific classifications -- "independent supernatural dramedy featuring a strong female lead" – that can sometimes hit a little too close to home. Each contribution in this collection introduces readers to a different microgenre, drawn from a range of historical periods and from a variety of media. The Microgenre presents a previously untreated point of cultural curiosity, revealing the profound truth that humanity's desire to classify is often only matched by the unsustainability of the obscure and hyper-specific. It also affirms, in colorful detail, what most people suspect but have trouble fathoming in an increasingly homogenized and commercial West: that imaginative projects are just that, imaginative, diverse, and sometimes completely and hilariously inexplicable.

On his day off an agricultural salesman uncovers both country life and the ruins of a massive, ruined estate in the hills of Upstate New York.

A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga’s final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford’s defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive “New Right” organizers deploying state-of-the-art technology, bending political norms to the breaking point—and Reagan’s own unbending optimism, his ability to convey unshakable confidence in America as the world’s “shining city on a hill.” Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity, Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter’s Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan “Make America Great Again”—and prevailed. Reaganland is the story of how that happened, tracing conservatives’ cutthroat strategies to gain power and explaining why they endure four decades later.

Starr Carters beste vriend Khalil wordt doodgeschoten door een politieagent. Khalil had geen wapen op zak maar was 'vermoedelijk' een drugsdealer. Verslagen door emoties probeert Starr zichzelf te herpakken in een samenleving vol ongelijkheid. De armoedige buurt waarin ze woont geeft een groot contrast met de school waar ze elke dag naartoe gaat. Overleven in deze twee werelden wordt steeds lastiger en de waarheid spreken krijgt een hoge prijs.

The 5 Years After series continues with its unforgettable imagery, smart storyline and moments that scare the hell out of you. - Newly promoted Captain Maggie Hunter commands her first combat mission in Canada. -Believing that Maggie is dead. Brett journeys through the American Northwest as a first hand witness to the end of all things. - Molly follows General Beuragard's invasion force into Kentucky where she comes face to face with proof of how close the country is to collapse. -The Deacon explores abandoned New York City infested with dead. Are there survivors? The answer is both intriguing and disturbing. A well thought out storyline with imagery that is as startling as it is descriptive. 5 Years After does a great job of presenting a future of darkness, contrasted with sprinkles of hope and humanity. - ATZ.com ...Rich characters.....an incredible and believable landscape

Concerned to think intentionally about liturgy in Baptist life and thought, this book aims to address the practices of Christian worship in a theological light, examining how each brings individual Christian believers and communities of faith to a greater understanding and embodiment of the gospel. In this mode, worship becomes a seamless garment that forms disciples of Christ and opens out toward the world. In short, theology, worship, and mission all intersect in the liturgical life of the body of Christ. In addition to theological engagement with liturgical practices, Gathering Together links reflection to praxis by offering sample patterns as a guide for reenvisioning the shape of Baptist (and other free church) worship.

On annonçait une tempête effrayante. Mais sur l’île de Little Tall, on a l’habitude de ce terrible vent venu du nord-est. Pourtant, cette fois-ci, c’est différent. Pire que le froid et la neige, l’ouragan apporte avec lui quelque chose de terrifiant. Quelque chose que l’on n’a jamais vu. Quelque chose que personne ne veut voir. C’est lorsque les premiers flocons de neige commencent à tomber que Martha Clarendon est sauvagement assassinée. Confortablement installé dans le fauteuil de celle qu’il vient de tuer, André Linoqe attend. Car il sait qu’il va être arrêté. Il sait aussi que si on lui donne ce qu’il veut, il partira.

The output from world aquaculture, a multi-billion dollar global industry, continues to rise at a very rapid rate and it is now acknowledged that it will take over from fisheries to become the main source of animal and plant products from aquatic environments in the future. Since the first edition of this excellent and successful book was published, the aquaculture industry has continued to expand at a massive rate globally and has seen huge advances across its many and diverse facets. This new edition of Aquaculture: Farming Aquatic Animals and Plants covers all major aspects of the culture of fish, shellfish and algae in freshwater and marine environments. Subject areas covered include principles, water quality, environmental impacts of aquaculture, desert aquaculture, reproduction, life cycles and growth, genetics and stock improvement, nutrition and feed production, diseases, vaccination, post-harvest technology, economics and marketing, and future developments of aquaculture. Separate chapters also cover the culture of algae, carps, salmonids, tilapias, channel catfish, marine and brackish fishes, soft-shelled turtles, marine shrimp, mitten crabs and other decapod crustaceans, bivalves, gastropods, and ornamentals. There is greater coverage of aquaculture in China in this new edition, reflecting China’s importance in the world scene. For many, Aquaculture: Farming Aquatic Animals and Plants is now the book of choice, as a recommended text for students and as a concise reference for those working or entering into the industry. Providing core scientific and commercially useful information, and written by around 30 internationally-known and respected authors, this expanded and fully updated new edition of Aquaculture is a book that is essential reading for all students and professionals studying and working in aquaculture. Fish farmers, hatchery managers and all those supplying the aquaculture industry, including personnel within equipment and feed manufacturing companies, will find a great deal of commercially useful information within this important and now established book. Reviews of the First Edition "This exciting, new and comprehensive book covers all major aspects of the aquaculture of fish, shellfish and algae in freshwater and marine environments including nutrition and feed production." International Aquafeed "Do we really need yet another book about aquaculture? As far as this 502–page work goes, the answer is a resounding ?yes?. This book will definitely find a place in university libraries, in the offices of policy–makers and with economists looking for production and marketing figures. Fish farmers can benefit greatly from the thematic chapters, as well as from those pertaining to the specific plant or animal they are keeping or intending to farm. Also, they may explore new species, using the wealth of information supplied." African Journal of Aquatic Science "Anyone studying the subject or working in any way interested in aquaculture would be well advised to acquire and study this wide–ranging book. One of the real ?bibles? on the aquaculture industry." Fishing Boat World and also Ausmarine

"This book, a sequel to the author's Index to Marriages and Deaths in The (Baltimore) Sun, 1837-1850, deals only with marriages, but goes through 1860. Arranged alphabetically by grooms' names, there also is an index of brides and others mentioned in the marriage notices. About 15,000 marriages are recorded, and with the others mentioned, about 35,000 persons are cited in the text. Each entry has the marriage date, and exactly where and when it appeared in the paper" -- publisher website (August 2007).

Acanthus to Aurinia. This 272 page volume for genera starting with A is larger than many perennial books for all genera. More than 177 Achillea, 192 Agapanthus, 637 Agave names, 109 Ajuga, 274 Aquilegia, and 191 Astilbe cultivars are covered in much detail. Written by horticultural taxonomist Larry Hatch over more than 35 years, Hatch's Perennials was designed to be the ultimate guide to hardy herbaceous cultivars not found in other established manuals and references. Descriptions are cultivar specific (not general for a species), images large and digital, and the history and origins of many cultivars are covered.

Hatch's Perennials is being revised with new cultivars, images, historical scans, and other useful information for the perennial expert, collector, breeder, grower, and curator alike. This June 2017 revision covers cultivars in the genera Uncinia, Uvularia, Vancouveria, Valeriana, 389 Verbena cultivars, Vernonia, 146 Veronica cultivars, Veronicastrum, 69 Vinca cultivars, Viola, Wahlenbergia, Waldsteinia, Woodwardia, Xanthoceras, and 97 modern Yucca cultivars.
