This book is part of an initiative in cooperation with renowned Chinese publishers to make fundamental, formative, and influential Chinese thinkers available to a western readership, providing absorbing insights into Chinese reflections of late, and offering a chance to grasp today's China. In their influential book Handbook of the History of Religions in China, Zhongjian Mou and Jian Zhang present a panorama of the religions existing in China through time. In their fascinating History, they delineate the emergence and development of Daoism, Buddhism, Confucianism, Islam, and Christianity and explore the roles they played in Chinese society and the interrelations between them. In China, also due to the encompassing Confucian idea of "living together harmoniously while maintaining differences," religions—including newly arrived ones—came closer together than anywhere else in the world and reached a unique level of peaceful societal coexistence. Despite many frictions and conflicts, communication and reconciliation were indisputably predominant in China throughout history. Buddhism was peacefully introduced into China and, later on, a harmonious, symbiotic syncretism of Confucianism, Buddhism, and Daoism developed—an exemplary process of how a diverse set of different religions can complement each other and contribute to a better life.

A heart in need of repair Linda Fioretti is a grown woman. She left Los Angeles and a lousy marriage to make a new life for herself in Rumor, Montana. And that means discovering just who she's become over the years. An artist? A teacher? Or the kind of woman who falls in love at first sight? Carpenter Tag Kingsley has been hired to renovate her apartment, and when he swaggers into her home, Linda's pulse begins to hammer. From his kind words to his sexy smile, this single father's dangerous sensuality and tenderness are unnervingly attractive--almost enough to tear down the walls around her heart.

The first-person accounts in Taken by Bear in Glacier National Park provide a you-are-there perspective on human and grizzly bear encounters since the park's founding in 1910. Most of these encounters have ended peacefully, but many have not. In order to most accurately tell the stories of those involved in the more deadly incidents, Kathleen Snow went directly to the source: the National Park Service archives. With help from personnel at park headquarters, Snow has collected more than 100 years' worth of harrowing true stories that read like crime scene investigations and provide hard-learned lessons in outdoor safety. A must-read for fans of Taken by Bear in Yellowstone and the classic Bear Attacks: Their Causes and Avoidance by Stephen Herrero.
