Pocketcard Set  
American Academy of Neurology (2012)

Written by medical students with input from faculty, this unique book is a survival guide for the wards/clerkships. An essential part of the First Aid series, the book includes a guide to wards success and what to expect on clinical rotations with practical information for all clerkships. Also included are high-yield information for each clerkship, (internal medicine, neurology, ob/gyn, pediatrics, psychiatry, and surgery) with new "Sample Notes" for each rotation and updated student ratings of major textbooks and clerkship resources.

Neurology Pocketcard 2-card Set (Package of 5 Sets of Cards With Display)  
Medical Classifications Pocket

*It's a collection of the most useful scores, evidence-based criteria and an overview of major medical classification systems. It enables the clinician to predict outcome, stratify risk, and assess conditions. By covering all relevant specialties, this reference guide makes a valuable tool for clinical work. It's a great time-saver!*

Wards 101 Pocketcard Set

*Innovations that bring value propositions through new processes, resources, or technologies to practice. How are we changing outcomes through new innovations in practice? The articles in this issue will provide nurses with the information they need to improve patient outcomes. Articles are devoted to skin cancer screening in the medically underserved, innovative practices for risk assessment and documentation in preventative colon screenings, evidenced-based protocol for diagnosis and treatment of catheter associated urinary tract infection within adult neurocritical care patient population, changing the focus to the PATIENT plan of care, and a nursing focus on EMR usability enhancing documentation of patient outcomes.*

*Cluster Headache GUIDELINES Pocketcard*

The Oxford Textbook of Palliative Social Work is a comprehensive, evidence-informed text that addresses the needs of professionals who provide interdisciplinary, culturally sensitive, biopsychosocial-spiritual care for patients and families living with life-threatening illness. Social workers from diverse settings will benefit from its international scope and wealth of patient and family narratives. Unique to this scholarly text is its emphasis

on the collaborative nature inherent in palliative care. This definitive resource is edited by two leading palliative social work pioneers who bring together an array of international authors who provide clinicians, researchers, policy-makers, and academics with a broad range of content to enrich the guidelines recommended by the National Consensus Project for Quality Palliative Care. First Aid for the Wards

Neurology Pocketcard Set- 10 Pack

**The GUIDELINES Pocketcard™ is a trifold pocketcard containing society-endorsed, evidence-based treatment guidelines in a brief algorithmic format that is most preferred by practicing clinicians, quality managers, nurses, educators, and medical students. The Cluster Headache GUIDELINES Pocketcard is endorsed by the American Academy of Neurology (AAN) and based on the latest AAN guidelines. This practical quick-reference tool contains diagnostic and treatment recommendations for cluster headaches with algorithms, drug therapy, and dosing information. The Cluster Headache GUIDELINES Pocketcard provides all that is needed to make accurate clinical decisions at the point of care including key points; treatment strategies; prevention; a treatment algorithm; a list of acute, preventive, and transition medications with doses and comments; current medication tables with brand and generic names; and detailed drug information with strengths, formulations, and comments. Applications include point-of-care, education, QI interventions, clinical trials, medical reference, and clinical research.**
