***Throughout the Pacific region, people are faced with dramatic changes, often described as processes of “glocalization”; individuals and groups espouse multilayered forms of identity, in which global modes of thinking and doing are embedded in renewed perceptions of local or regional specificities. Consequently, new forms of resistance and resilience – the processes by which communities attempt to regain***

*Bush's "No Child Left Behind" mandate, which has threatened to close more than 6,000 public schools, to the detriment of dedicated teachers and disadvantaged children alike. Revealing how NCLB forces schools with strictly limited resources to teach its children test-taking skills in a desperate bid to pass high-stakes standardized testing, and how the government blacklists successful professors, institutions, and methods that balk the NCLB party line, and much more, Saving Our Schools warns of an immediate threat to the integrity of public education and urges the reader to take action. Examining the experiences of teachers who are already trusted to call the shots, this book answers: What would teachers do if they had the autonomy not just to make classroom decisions, but to collectively—with their

colleagues—make the decisions influencing whole school success? Decisions such as school curriculum, how to allocate the school budget, and who to hire.

Big Gay Adventures in Education is a collection of true stories by 'out' teachers, and students of 'out' teachers, all about their experiences in schools. The book aims to empower LGBT+ teachers to be the role models they needed when they were in school and help all teachers and school leaders to promote LGBT+ visibility and inclusion. The contributors range from trainee teachers to experienced school leaders and leading figures from the community across the LGBT+ spectrum, as well as LGBT+ students whose lives were improved by having an openly LGBT+ teacher. Each story

is accompanied by an editor's note reflecting on the contributor's experience and the practical implications for schools and teachers in supporting LGBT+ young people and ensuring they feel safe and included in their school communities. Compiled by the co-founder and director of LGBTed, the inspiring stories in this book are essential reading for LGBT+ teachers and allies. Let's be the role models we needed when we were at school and show our students that they can be successful and happy as an LGBT+ person.

Raising Your Kids to Succeed: What Every Parent Should Know describes what parents can do to be effective and help their children succeed, both in school and in life. Winner of the Pulitzer Prize, the National Book Critics Circle Award, the Robert F. Kennedy Book Award, and the American Book Award, the bestselling *Common Ground* is much more than the story of the busing crisis in Boston as told through the experiences of three families. As Studs Terkel remarked, it's "gripping, indelible...a truth about all large American cities." "An epic of American city life...a story of such hypnotic specificity that we re-experience all the shades of hope and anger, pity and fear that living anywhere in late 20th-century America has inevitably

work on post-1945 U.S. history. Yet the dominant narrative of the movement remains that of a nonviolent movement born in the South during the 1950s that emerged triumphant in the early 1960s, only to be derailed by the twin forces of Black Power and white backlash when it sought to move outside the South after 1965. African American protest and political movements outside the South appear as ancillary and subsequent to the 'real' movement in the South, despite the fact that black activism existed in the North, Midwest, and West in the 1940s, and

persisted well into the 1970s. This book brings together new scholarship on black social movements outside the South to rethink the civil rights narrative and the place of race in recent history. Each chapter focuses on a different location and movement outside the South, revealing distinctive forms of U.S. racism according to place and the varieties of tactics and ideologies that community members used to attack these inequalities, to show that the civil rights movement was indeed a national movement for racial justice and liberation.

Bluebells by Sophia Devasahayam is a collection of autobiographical

recollections of encounters and events that left their imprint on her life and

personality, and the lessons learned. The

author is the daughter of Christian evangelists who worked in South India.

They chose to live and work among social

outcasts, commercial sex workers, and antisocial elements to make them embrace

a life of spirituality. Her parents believed

in voluntary austerity, hard physical work, and long hours of prayer. Sophia's

childhood was an offbeat one, where self-

denial and discipline was a way of life, and was marked by an absence of material comforts that most children enjoy.

Sophia's essays are not recollections of rapturous moments in tranquility as William Wordsworth would have written, but are narrations of painful or traumatic occurrences when she was mentally exhausted due to long hours of study for her doctoral dissertation. Recollections of significant events from her childhood have helped her arrive at a deeper understanding of herself. Bluebells is a series of essays combining the lyricism of a poet with the analytical quality of a researcher. They move beyond the personal to offer a message of positive living through fostering values. Her essays and beautiful poetry go beyond narration to examine what moulded her character. Biblical allusions and literary references help reinforce her observations about the
