Test Project 3

**This popular series
gives teachers
practical advice and
guidance, along
with resource ideas**

and materials for the classroom. The tasks and activities are clearly presented, and offer teachers the information they need about level, time, preparation, materials, classroom management, monitoring, and follow-up activities. Each

**book offers up to
100 ideas, as well as
variations that
encourage teachers
to adapt the
activities to suite
their individual
classrooms.**

**The authors have
used their specialist
knowledge of the
CAE exam to
provide practice
exam questions**

which genuinely replicate the real test papers. Each reading text is taken from a different source, giving students experience in coping with the widest variety of authentic material. Photocopiable answer sheets give students practice in transferring their

answers from the test paper. The With Answers Edition contains detailed information about the marking scheme, and sample students' compositions.

The unique loopback structure ensures constant revision and a realistic pace to the

syllabus. A new photocopiable end-of-unit test for each unit consolidates the revision process. The grammar-based syllabus presents new structures using a problem-solving approach. This encourages students to think about how the

language works and creates the basis for a deeper understanding of the structures. A new, comprehensive 'Grammar reference' section provides reinforcement. It encourages students to develop learning strategies and take more

control of their own learning. A new 'Learning to learn' feature begins each unit, sharpening the focus on learner development. An engaging photostory about a group of British teenagers (Victoria Road) presents modern English in a lively and

**motivating way that
invites cross-
cultural
comparisons.**

**Reading and
listening topics
have a balance of
cross-curricular
themes and teenage
interest. From
Elementary level,
guided writing
sections are
introduced to**

develop writing skills. There is greater emphasis on pronunciation work, with expanded pronunciation activities and reading texts recorded on cassette to give useful pronunciation models. Project work provides

opportunities for students to practise all four skills and to apply English to their own personal worlds in motivating, creative ways. New 'Project workshops' provide more support for projects. It is designed to be equally effective in mixed-ability

classes with many activities, including interaction and project work, which allow students to work at their own pace and gain a satisfying sense of achievement. It can be started at beginner level with New Hotline Starter or at false-beginner level with New

This book offers a wide range of topics for the scholar interested in the study of English in this unsettling era of disruption in our lives –

from linguistics to literature to language teaching and learning. The chapters present snippets of thoughts and critical reflections, findings from action research and other methodologies, and essays on troubling topics for language teachers. The authors are researchers, experienced teachers,

and students engaged in exploratory research.

The many ideas and suggestions for further reflection and research will inspire teachers and researchers working in many different contexts, both educational and regional. There is something in this book for everybody.

Explores principles, techniques and practical

This book relates
language testing
practice to current
views of communicative
language teaching and
testing. It builds on the
theoretical background
expounded in
Bachman's
Fundamental
Considerations in
Language Testing and

examines the design, planning, and organization of tests. The book is divided into three sections which discuss 1) objectives and expectations, the context of language testing, and the abilities to be tested; 2) the process of test development, including blueprints, resources, operationalization, and

scoring methods; and 3) ten examples which illustrate the principles discussed in Parts One and Two.

A new edition of this low-level Business English course, which provides practice for the TOEICand® test.
