From alternatives to the Carnival in Rio and the beaches of Thailand to substitutes for the most visited national parks and over-rated restaurants; The Road Less Travelled will help you find less crowded, sometimes less expensive and often more spectacular and rewarding places to visit. Presenting 1,000 fascinating alternatives to hundreds of well-known tourist destinations and sights, this compact edition of the bestselling guide brings vibrant cities, enchanting sights, breathtaking natural wonders and unforgettable experiences to life. Written by a team of travel experts and with a foreword by Bill Bryson, The Road Less Travelled is divided by theme to help you find what you're looking for - Ancient and Historical Sights, Festivals and Parties, Great Journeys, Architectural Marvels, Natural Wonders, Beaches, Sports and Activities, Art and Culture, and Cities. And it's packed with informative narrative and stunning photography, plus practical advice on where to stay, where to eat, when to go and useful 'need to Know' facts to ensure that you get the most out of your time away. Escape the everyday and embrace the new with The Road Less Travelled.

The first edition of the widely praised Marine Protected Areas for Whales, Dolphins and Porpoises, published in 2005, led to numerous new marine protected area proposals and a number of notable conservation successes around the world. In this completely revised and expanded second edition, new developments in the Mediterranean, Caribbean and Pacific are described, as well as future directions for High Seas protection. New sections show how to design and manage MPAs in an ever noisier ocean subject to climate change, increased shipping and hydrocarbon exploration. The process of protected area creation for cetaceans has been accelerated and more than 200 exciting new places are detailed in this edition. This book provides a route map for MPA managers, as well as countries, to meet the ambitious targets for highly protected MPA networks by 2012 and 2020. This book is a key conservation tool and a springboard for worldwide change in human attitudes toward the world ocean where all life originated and where the majority of life on Earth still lives.
