*Using the latest mapping techniques, J.A.A. Jones, Chair of the IGU Commission for Water Sustainability, examines water availability, the impact of climate change and the problems created for water management worldwide as well as possible solutions. **Water Sustainability: A Global Perspective** is one of the first textbooks to meld the physical and human aspects affecting the world's water resources. Part One outlines the challenges and investigates the human factors: population growth; urbanization and pollution; the commercialization of water, including globalization and privatization; and the impacts of war, terrorism and the credit crunch. Part Two examines the physical aspects: the restless water cycle, the impact of past and future climate change and the problems change and unreliability create for water management. Part Three discusses current and future solutions including improved efficiency and water treatment systems, desalination, weather modification and rainwater harvesting, and improved legal and administrative frameworks. Jones concludes by asking how far technical and financial innovations can overcome the limitations of climatic resources and examining the human and environmental costs involved in such developments. This book is the ideal text for any student of water sustainability whether approaching the subject from the point of view of international relations, geography or environmental management.*

Includes "a detailed gazetteer and a 32 page atlas section" as well as numerous color photos.

HET HUIS ZONDER RAMEN (1927) is het verhaal van het jonge meisje Eepersip dat niet kan aarden in de alledaagse, beschaafde wereld. Op een dag besluit ze weg te lopen van huis, het avontuur tegemoet. Eepersip reist door weilanden en

bossen, langs de zee, over ijzige en steile berggrotten, samen met feeën, vlinders, zwaluwen en herten. Ze raakt bevangen door de grenzeloze schoonheid van de natuur om haar heen en de dieren die erin leven. Het huis zonder ramen beschrijft de zoektocht van een jong kind naar een eigen plek op aarde. Het is een avontuur doorspekt met hoop, dromen en leven, vertelt vanuit de enthousiaste, onbezorgde en hartverwarmende blik van een jong kind. BARBARA NEWHALL FOLLETT (1914 onbekend) schreef Het huis zonder ramen toen zij negen jaar oud was. Het boek werd lovend ontvangen door de pers en groeide uit tot een bestseller. Op veertienjarige leeftijd verscheen haar tweede roman The Voyage of the Norman D. In 1939, op vijftientigjarige leeftijd, verdween ze spoorloos en werd nooit meer gezien. `Het meest authentieke en zuivere verslag van de ontwikkeling van een jonge geest, zoals het nooit eerder werd beschreven. Een werkelijk opmerkelijk boekje The New York Times Tribune `Van een haast ondraaglijke schoonheid The Saturday Review of Literature `Ik heb niets dan lovende woorden over dit verhaal. Het huis zonder ramen is voortreffelijk The New York Herald

Dave Goulson is van jongs af aan gefascineerd door de natuur. Op hartverwarmende wijze beschrijft hij zijn eerste en het moet
gezegd vrij klungelige ontmoetingen met de dierenwereld: bij het schoonmaken van zijn aquarium elektrocutteert hij zijn
lievelingsvissen en na een zomerse regenbui droogt hij zijn hommels en zet ze per ongeluk in brand. Hij doet alles om de natuur
en met name de wereld van de hommels, te doorgronden. Zijn jeugdige fascinatie zet hem aan tot jarenlang onderzoek naar deze
`charismatische tijgers van de insectenwereld , die met uitsterven worden bedreigd. In Een verhaal met een engel laat Goulson
zien hoe belangrijk de hommels voor ons is, en zijn fantastische anekdotes tonen hoe intrigerend dit beestje is. Na het lezen van
Een verhaal met een engel zul je de hommels met heel andere ogen bekijken.
