The definitive, comprehensive guide to Virginia Beach, Richmond and surrounding areas, with hundreds of lodging, dining, and recreational recommendations. Explore this vital region—Virginia Beach and Richmond, the state capitol. Author Renee Wright offers extensive coverage of Colonial Williamsburg, historic James-town, and Norfolk, home to the great Atlantic Fleet. Includes special sections on Civil War battlefields, maritime history, Hampton Roads' quadricentennial, and bird-watching opportunities in the region.

'The British designer who revolutionised retail and decor.' BBC news 'Terence Conran was instrumental in the redesigning of post-war Britain and his legacy is huge..He changed the way we lived and shopped and ate.' Tim Marlow, Director and Chief Executive, Design Museum. 'He spent his whole career

looking for ways to make life better for everyone.' Deyan Sudjic, Director Emeritus, Design Museum In My Life in Design, Terence Conran tells the story of the Conran brand from the founding of the Conran Design Studio more than sixty years ago to the creation of the Design Museum, now based in a dazzling new space on High Street Kensington.

Extensively illustrated chapters consider the many areas where Terence and his design team made a lasting impact on the way we live our lives, including the founding of Habitat, which introduced good, affordable homeware to the high street, his restaurants, which brought Britain out of the culinary dark ages to discover the joys of eating out and his talent for rescuing and regenerating abandoned buildings and bringing them back into exciting new use. My Life in Design is illustrated with more than 400

images - many from private collections that have not been published before. The book is introduced by internationally renowned designer, Thomas Heatherwick, who identifies his mentor Terence Conran as 'a modernist who, together with a tiny handful of others, gave us a new vision of Britain and ourselves.' Now in his eighties and still designing beautiful homeware and opening buzzy, welcoming restaurants, Terence reveals the secrets and stories of this transformation of British design. Gloriously lively, opinionated and visually stimulating, this is the only book to tell the story of Terence Conran's remarkable career in his own words. *Terence Conran: My Life in Design* will appeal to designers, students and all those who have grown up with the work of the multi-talented Sir Terence Conran.

American cities are increasingly turning to revitalization strategies that embrace the ideas of new urbanism and the so-called creative class in an attempt to boost economic growth and prosperity to downtown areas. These efforts stir controversy over residential and commercial gentrification of working class, ethnic areas. Spanning forty years, Latino City provides an in-depth case study of the new urbanism, creative class, and transit-oriented models of planning and their implementation in Santa

Ana, California, one of the United States' most Mexican communities. It provides an intimate analysis of how revitalization plans re-imagine and alienate a place, and how community-based participation approaches address the needs and aspirations of lower-income Latino urban areas undergoing revitalization. The book provides a critical introduction to the main theoretical debates and key thinkers related to the new urbanism, transit-oriented, and creative class models of urban revitalization. It is the first book to examine contemporary models of choice for revitalization of US cities from the point of view of a Latina/o-majority central city, and thus
