

Sample Housing Support Letter

Offers legal advice for tenants in New York, discusses common rental problems and solutions, and includes instructions for preparing legal forms and letters.

This book portrays how small, geographically dispersed, and progressive social change and social service organizations working within a coalition can influence national-level social policies. Based on extensive empirical research on two national organizations and their local affiliates, one focusing on affordable housing and the other working to protect lower-income communities, this book shows the ways in which professionally staffed organizations that coordinate coalitions come about, and describes their work to mobilize coalition members to lobby and advocate, providing information, analysis and instruction to facilitate such action and, in so doing, becoming the public voice for the social change efforts of coalitions. Advocacy for Social Change details the characteristics of these organizations that the author has labeled as focal catalytic coalition organizations and then provides numerous examples of campaigns led by them on affordable housing and economic justice: campaigns that illustrate tactics that other social change organizations can emulate. As such, it will appeal to scholars of sociology with interests in social problems, social action, political sociology, urban studies, community development and organizing while extending the literature on interest group lobbying.

Effective Grantsmanship for Funding

Challenging the Stigma of Mental Illness offers practical strategies for addressing the harmful effects of stigma attached to mental illness. It considers both major forms of stigma: public stigma, which is prejudice and discrimination endorsed by the general population; and self-stigma, the loss of self-esteem and efficacy that occurs when an individual internalizes prejudice and discrimination. Invaluable guide for professionals and volunteers working in any capacity to challenge discrimination against mental illness Contains practical worksheets and intervention guidelines to facilitate the implementation of specific anti-stigma approaches Authors are highly experienced and respected experts in the field of mental illness stigma research

The papers in this volume, prepared by social scientists with different specializations, address selected aspects of Hong Kong's post-War development.

Scattered-site Housing

The authors provide a combination of the law and practice of housing law, giving a detailed yet accessible analysis of the most important areas of housing law that practitioners currently encounter.

This book gathers together recent international research in intellectual disability (ID), examining the diverse modes of existence that characterise living with intellectual disabilities in the 21st century. Ranging from people with no speech and little mobility who need 24-hour care, to people who marry or hold down jobs, this book moves beyond the typical person with ID imagined by public policy: healthy, with mild ID and a supportive family, and living in a welcoming community. The book is divided into three sections. The first, 'A richer picture of people and relationships', expands our understanding of different people and lifestyles associated with ID. The second section, 'Where current policies fall short', finds that Supported Living provides just as 'mediocre' a form of care as group homes, and concludes that services for people with challenging behaviour are unrelated to need. The contributors' research identifies no effective employment support strategies, as well as technological and legal changes that prevent organisations from employing people with ID. With nearly a quarter of this population in poor health, the contributors reflect on whether 'social model' approaches should be allowed to trump medical considerations. The third section, 'New thinking about well-being', reveals that being old, poor, and living alone increases health risk, and that medication administration is significantly more complex for people with ID. Moving beyond 20th century certainties surrounding intellectual disability, this book will be of interest to those studying contemporary issues facing those living with ID, as well as those studying public health policy more widely. The chapters in this book were originally published in issues of the Journal of Intellectual & Developmental Disability.

Department of Housing and Urban Development-independent Agencies Appropriations for 1976: Environmental Protection Agency; testimony

Congressional Record

Economic Analysis Handbook

Bliss Bibliographic Classification, Second Edition is an outline composed of thorough and detailed analysis of the vocabulary of economics and management. The book is divided into two chapters. Chapter 1 includes concepts related to the subject, such as the schools of thought in economics, economic history and processes, supply and demand, the price and market system, and economic resources. Chapter 2, on the other hand, is an outline of different concepts related to management, such as the management of economic enterprises, management processes and functions, and management techniques. The text is recommended for economists and financial analysts, especially those who are making studies and are in need of a reference material.

The updated Fifth Edition of the best-selling Proposal Writing: Effective Grantsmanship for Funding offers a fresh, robust presentation of the basics of program design and proposal writing for community services funding. Authors Soraya M. Coley and Cynthia A. Scheinberg help readers develop the knowledge they need to understand community agencies, identify and describe community needs, identify funding sources, develop a viable program evaluation, prepare a simple line-item budget, and write a compelling need statement. The jargon-free, step-by-step presentation makes the book as useful to students in the university classroom as to first-time grant writers in the nonprofit setting.

Renters have many legal rights— learn yours and how to protect them! The only book of its kind, Every Tenant's Legal Guide gives you the legal and practical information you need (plus dozens of sample letters and forms) to find a great rental and landlord. Learn your rights regarding pets, guests, deposits, and privacy—and find out how to: get repairs and use rent withholding or repair-and-deduct if you have to avoid disputes with roommates over rent, deposits, guests, and noise fight illegal discrimination, retaliation, or sexual harassment navigate state and local rent control laws deal with hazards like lead paint, mold, or bed bugs break a lease with minimum liability, and get your security deposit returned on time. The 10th edition of Every Tenant's Legal Guide includes charts with the details on landlord-tenant laws. This edition also includes information on how to research and handle pandemic-related issues such as eviction bans and lease amendments. With downloadable forms: Includes move-in and move-out forms, and security deposit demand letter—available for download (details inside).

This book is a collection of nearly 250 shortened or adapted business letters that were actually emailed, faxed, or posted. While the letters vary in complexity and length, all samples are comprised of straightforward sentences that upper intermediate readers of English as a second language should have no difficulty understanding and using. The book should also be useful for native English speakers seeking a fundamental approach to written business communication and for teachers in need of business-writing source material and exercises. The book is divided into three parts: Part 1: Letter samples and answers to the exercises (usually letter revisions). Part 2: Exercises (original letters, situational assignments, and sequencing assignments). Part 3: Hotel and travel matters.

Classic Readings in Urban Planning

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

An examination of the neighborhood transformation, gentrification, and displacement that accompany more compact development around transit. Cities and regions throughout the world are encouraging smarter growth patterns and expanding their transit systems to accommodate this growth, reduce greenhouse gas emissions, and satisfy new demands for mobility and accessibility. Yet despite a burgeoning literature and various policy interventions in recent decades, we still understand little about what happens to neighborhoods and residents with the development of transit systems and the trend toward more compact cities. Research has failed to determine why some neighborhoods change both physically and socially while others do not, and how race and class shape change in the twenty-first-century context of growing inequality. Drawing on novel methodological approaches, this book sheds new light on the question of who benefits and who loses from more compact development around new transit stations. Building on data at multiple levels, it connects quantitative analysis on regional patterns with qualitative research through interviews, field observations, and photographic documentation in twelve different California neighborhoods. From the local to the regional to the global, Chapple and Loukaitou-Sideris examine the phenomena of neighborhood transformation, gentrification, and displacement not only through an empirical lens but also from theoretical and historical perspectives. Growing out of an in-depth research process that involved close collaboration with dozens of community groups, the book aims to respond to the needs of both advocates and policymakers for ideas that work in the trenches.

Multidisciplinary Perspectives on Aging

Challenging the Stigma of Mental Illness

The social fund is possibly the most problematic part of the social security system. It has been described as the soft underbelly of social security - the arena where disputes about values, objectives and practical policy are fought out. Since it began operating, the social fund has been the focus of a considerable evaluative effort by a wide variety of statutory and voluntary bodies.

The issue of social justice has been brought to the forefront of society within recent years, and educational institutions have become an integral part of this critical conversation. Classroom settings are expected to take part in the promotion of inclusive practices and the development of culturally proficient environments that provide equal and effective education for all students regardless of race, gender, socio-economic status, and disability, as well as from all walks of life. The scope of these practices finds itself rooted in curriculum, teacher preparation, teaching practices, and pedagogy in all educational environments. Diversity within school administrations, teachers, and students has led to the need for socially just practices to become the norm for the progression and advancement of education worldwide. In a modern society that is fighting for the equal treatment of all individuals, the classroom must be a topic of discussion as it stands as a root of the problem and can be a major step in the right direction moving forward. Research Anthology on Instilling Social Justice in the Classroom is a comprehensive reference source that provides an overview of social justice and its role in education ranging from concepts and theories for inclusivity, tools, and technologies for teaching diverse students, and the implications of having culturally competent and diverse classrooms. The chapters dive deeper into the curriculum choices, teaching theories, and student experience as teachers strive to instill social justice learning methods within their classrooms. These topics span a wide range of subjects from STEM to language arts, and within all types of climates: PK-12, higher education, online or in-person instruction, and classrooms across the globe. This book is ideal for in-service and preservice teachers, administrators, social justice researchers, practitioners, stakeholders, researchers, academicians, and students interested in how social justice is currently being implemented in all aspects of education.

Buy, tune, maintain and modify your prized 911 with this ultimate guide. Learn about wheel and tire improvement, up-to-the-minute autocross or showroom stock suspension and brake mods, custom add-on bodywork and paint, and interiors -- where to buy it, how to install it and what to expect for a result. Covers engine, suspension, chassis, transmission, tune-ups, model history, body and more on all 911s up through 1996.

In this multidisciplinary text, noted leaders from a variety of fields provide students and professionals with a big picture approach to the best possible care for today's growing aging population. Addressing the extensive concerns that have arisen out of an increased life expectancy and the 'elder-boom' of aging baby boomers, the contributors point to changing care and housing needs; health, mental health, and wellness concerns; and financial, ethical, and legal issues in elder care. Contributors include Eileen Chichin, Catherine DeLorey, Marshall Kapp, Gary Kennedy, William Smith, Patricia Miller, and Thomas Campbell Jackson.
