Financial Accounting Theory, Sixth Edition

Financial Accounting and Annual Report CD-ROM and Working Papers and Simply Accounting Sixth Edition

Financial Accounting and General Ledger Sixth Edition

The Sixth Edition of ADVANCED FINANCIAL ACCOUNTING, by Baker/Lembke/King continues its strong coverage of the topics, its well-known clarity of presentation, and its integrated coverage based on continuous case examples. The text is highly illustrated with complete presentations of worksheets, schedules, and financial statements so that students can see the development of each new topic. In the chapters covering consolidation subsequent to the date of combination, the three alternative methods of the parent company's accounting for the investment --basic equity, cost, and fully adjusted equity-- are presented in each chapter and appendices to provide the opportunity to cover the differences in the methods, and to see how the consolidated financial statements are the same regardless of the method the parent company uses to account for the investment. The two international chapters include a comprehensive discussion of accounting for foreign currency derivatives and other forms of derivatives such as interest swaps and options used in today's business arena. The governmental and not-for-profit chapters are comprehensive in their coverages of accounting and financial reporting for these entities, based on the most current GASB pronouncements. The text can be described as: (a) very comprehensive in coverage of advanced accounting topics, (b) extensively illustrated with worksheets and other learning tools, (c) clearly written for students' learning, (d) a very large variety of end-of-chapter materials for homework selections, and (e) current and complete in its coverage of accounting and reporting standards from the FASB and the GASB. Because Advanced Financial Accounting is often taken by students who plan to take the CPA exam, numerous end-of-chapter materials are provided in the formats as tested on the CPA exam. A wide variety of multiple-choice questions, cases requiring written presentations, and other objective answer format materials is provided.

Horngren's Financial & Managerial Accounting, the Financial Chapters

For courses in Financial and Managerial Accounting.

Expanding on proven success with Horngren's financial and managerial accounting Horngren's Financial and Managerial Accounting, The Financial Chapters present the core content and principles of accounting in a fresh format designed to help today's learners succeed. As teachers first, the author team knows the importance of delivering a reader experience free of obstacles. Their pedagogy and content uses leading methods in teaching readers critical foundational topics and concentrates on improving individual results. With this in mind, the 6th Edition continues to focus on readability and comprehension and takes this a step further in the managerial chapters by employing a new theme to help readers see how managerial accounting is used as a tool to help all

business people make decisions. By providing more meaningful learning tools, this title helps readers clear hurdles, like never before. Also available with MyLab Accounting MyLab(tm) Accounting is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol Financial Accounting is the ideal book for anyone with little prior knowledge or who is new to this subject area. The book retains the clear writing style and unique international focus which led to the success of previous editions. This approach enables the teaching of

financial accounting in a way that is not country-specific. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary real-life examples from around the world. What's new! Fully updated to reflect the extensive changes that have occurred in the three years since writing the fifth edition; Expanded discussion of accounting by SMEs and partnerships (Chapter 4); New discussion on capital maintenance (Chapter 8); Added material on integrated reporting and sustainability (Chapter 6); Expanded discussion of revenue recognition, including reference to IFRS 15 (Chapter 8). The text is ideal for undergraduates and MBA students worldwide taking a first course in financial accounting. Visit www.pearsoned.co.uk/alexander to find valuable online resources for both students and lecturers, including an instructor's manual and full set of power point slides. David Alexander is Professor Emeritus of Accounting at the University of Birmingham Business School, England. Christopher Nobes is Professor of Accounting at Royal Holloway, University of London, England. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee.
