The Jackson family, between them, have scored over 200 hits since November 1969, when the Jackson 5's I Want You Back entered Billboard's Hot 100 and Hot R&B singles charts in the States. I Want You Back went on to become the first Jackson no.1 - the first of 50 (and counting!). It is these chart toppers that form the A-Z backbone of this book - 20 by Janet, 20 by Michael, seven by the Jackson 5, two by Jermaine and one by the Jacksons, plus a further seven with a Jackson connection. The book also

features a comprehensive Fact File section, including: Top 100 Jackson singles, Chartography (USA & UK), the Jacksons in the USA, and the Jacksons in the UK and around the world.

Peter Kreeft's Socrates probes the contemporary values of success, power and pleasure.

Waar kom jij 's ochtends je bed voor uit? Ontdek de geheimen van het Japanse eiland Okinawa, waar het grootste aantal gezonde honderdjarigen ter wereld woont Volgens de Japanse traditie heeft iedereen een ikigai, een reden van bestaan. Het is één van de geheimen van een lang, tevreden en gezond leven, zoals de inwoners van Okinawa het leiden. Op dit Japanse eiland wonen meer gezonde en actieve honderdjarigen dan waar ook ter wereld. Sommige mensen hebben hun ikigai al gevonden, maar velen zijn er nog steeds naar op zoek. De auteurs vertrokken naar Okinawa en interviewden honderden

inwoners om te ontdekken wat volgens hen het geheim is voor een optimistisch en gezond leven. Zo is een populaire Japanse uitspraak Hara hachi bu, wat betekent 'eet tot je voor tachtig procent vol zit', dat is veel gezonder voor je lichaam. Ook hebben ze een moai, een groep mensen met dezelfde interesses die altijd voor je klaarstaan. En wat ze aanraden: ga nooit met pensioen, maar blijf altijd een doel hebben waarvoor je je bed uit komt. Inclusive Ethics begins from two ideas which are part of our everyday morality, namely that we have a moral reason to benefit or do good to other beings, and that justice requires these benefits to be distributed equally. A morality comprising these two general principles will be exceedingly hard to apply as these principles will have to be balanced against each in an intuitive fashion, but also because the notion of what benefits beings is quite complex, comprising both experiential components of pleasure and successful exercises of autonomy. Ingmar Persson

argues that, on philosophical reflection, these ideas turn out to be more far-reaching than we imagine. In particular, the reason to benefit commits us to benefit beings by bringing them into existence. Further, since grounds that are commonly used to justify that some are better off than others - such as their being more deserving or having rights to more - are untenable, justice requires a more extensive equality. The book concludes by reflecting on the problems of getting people to accept a morality which differs markedly from the morality with which they have grown up. We should all have a right

standing with God, which means that we should have his righteousness as Christians. I know that in this world it is a difficult situation and a challenge each day to do the right thing for God because of where you may be, like work, church, school, or even at home when you have friends over. As Christians, doing what is right in the eyes of God is done all the time no matter where we are. Doing it God's way is the best way to doing things, and we would be blessed when we do it. As real Christians or children of the Most High God, we are to do the right thing, and we would be able to see and feel that it is the right

thing to do, to help others that are in need, help people to see the truth, to read his Word, showing all that we are walking in his light and staying out of the dark of this world. The earthly life of Jesus is described as being led or filled with the Holy Spirit. We also must do as he did. God loves you and offers a wonderful plan for your life. Find your relationship with God. Learn how to do what is right by following Jesus Christ in all that he did. Learn from his truth, learn to hear his voice. Know his spiritual principles. Believe in God, and he will.

The book is about the author's testimony on how the author encountered the one true God and how life transformation took place. The book touches on the author's background life, the earlier days after encountering God, the journey with God, the special experiences with God, and the reflection of the journey after encountering God for many years. The main point in this book is to reach many people out there that wonder about God and whether there is one true living God that speaks, that leads, and guides, that heals their body and their broken heart and care for their life on earth and their future and life after death.

we'll likely never achieve - there are just too many bills that need paying and there is a widespread belief that the money game is rigged. Even people who win the lottery or inherit money often seem to wind up losing it. The evidence suggests you can't win a game that you don't understand - even if you start out winning - because you never understood the game in the first place. So how can you win with money? How can you create independent wealth and hold on to it? This inspiring book by self-made multi-millionaire Rob Moore explains the rules of the game, shares simple tricks for managing money better, details how to create a plan for an ambitious future, and shows you the very

best way to become a millionaire - to think and behave like one! Most people (including moral philosophers), when faced with the fact that some of their cherished moral views lead up to the Repugnant Conclusion, feel that they have to revise their moral outlook. However, it is a moot question as to how this should be done. It is not an easy thing to say how one should avoid the Repugnant Conclusion, without having to face even more serious implications from one's basic moral outlook. Several such attempts are presented in this volume. This is the first volume devoted entirely to the cardinal problem of modern population ethics, known as 'The Repugnant Conclusion'. This book is a must

for (moral) philosophers with an interest in population ethics.

For centuries, philosophers, theologians, moralists, and ordinary people have asked: How should we live? What makes for a good life? In *The Best Things in Life*, distinguished philosopher Thomas Hurka takes a fresh look at these perennial questions as they arise for us now in the 21st century. Should we value family

over career? How do we balance self-interest and serving others? What activities bring us the most joy? While religion, literature, popular psychology, and everyday wisdom all grapple with these questions, philosophy more than anything else uses the tools of reason to make important distinctions, cut away irrelevancies, and distill these issues down to their essentials. Hurka argues that if we are to live a good life, one thing we need to know is which activities and experiences will most likely lead us to happiness and which will keep us from it, while also reminding us that happiness isn't the only thing that makes life good. Hurka explores many topics: four types of good feeling

(and the limits of good feeling); how we can improve our baseline level of happiness (making more money, it turns out, isn't the answer); which kinds of knowledge are most worth having; the importance of achieving worthwhile goals; the value of love and friendship; and much more. Unlike many philosophers, he stresses that there isn't just one good in life but many: pleasure, as Epicurus argued, is indeed one, but knowledge, as Socrates contended, is another, as is achievement. And while the great philosophers can help us understand what matters most in life, Hurka shows that we must ultimately decide for ourselves. This delightfully accessible book
