*Open the door to exciting and fun learning adventures! Whether pastures or skyscrapers are outside your door, the world around you is rich with learning opportunities. Walking trips are a terrific—and inexpensive—way for children to explore and experience their community. Use children's interests as starting points to plan walks that are meaningful and engaging, and let children's natural curiosity and wonder help guide their learning as they investigate neighborhood gardens, markets, and even construction sites. With 27 nature, community, and concept walks, Hey Kids! Out the Door, Let's Explore! promotes children's early learning. Included with each walk are vocabulary words and related children's books; a list of suggested items to bring along; and tips to extend children's learning before, during, and after the outing. You will also find planning and preparation materials, sample permission forms, and guidelines for carrying out safe and educational walking trips.*

*Facilitate literacy in special-education learners in grades PK-K using Early Literacy Intervention Activities. This 160-page book provides teachers with activities that boost 11 proven literacy skills and intervention strategies. **EARLY EDUCATION CURRICULUM: A CHILD'S CONNECTION TO THE WORLD** focuses on the role of observation and assessment in early childhood programming, the process of planning and implementing a curriculum, setting up an inclusive child-centered environment, and the uses of evaluation and documentation for continuous program improvement. Updated with current research and standards, the text continues to present new material on brain research that underlies teaching ideas as well as information on reflective practice, intentional teaching, and using the environment as a teaching tool. The seventh edition includes more material on diversity and diversity strategies, activity plans for different age groups, and more floor plans. New case studies provide examples of how activities planned align with specific standards, and allow students to apply knowledge gained to real-life situations. The book retains its strong applied focus on the how-to's of teaching, with many hands-on teaching tips. *This book provides an in-depth understanding of how children's development at different stages of their lives interfaces with the kind of education and support they need at school and home. It examines closely how education, in turn, influences their development and prepares them for an uncertain future. The chapters focus on the rapid developments of the 21st century that are changing the nature of education, especially the shift needed to being able to sift through and meaningfully deal with overwhelming volumes of information now available. This book helps readers understand how children can benefit from the digital environment while avoiding its pitfalls. Keeping in mind that in today's world parents are getting to spend less time with their children, the authors provide research-backed ideas on how they can best enable children's development, including their thoughts, feelings and notions of self. Given the increasing disparities, there is a perceptive analysis of how education can build an awareness of equity in a context marked by diversity and disadvantage. This book addresses issues such as these in a reliable, scholarly yet accessible manner, for students, young researchers and lay readers. Consequently, it is a valuable source of fundamental insights and understanding for educators, policy-makers, educational administrators and students of human and child development, education, and teacher training courses.*

*Teach social skills and enrich classrooms to reduce problem behaviors and nurture growth. When teachers create environments that teach skills rather than punish individual actions, they reduce behavior problems and nurture the growth of all learners. This book expertly guides early childhood teachers to analyze their classroom elements, routines, and responses to children. Much like gardeners who adjust soil, water, or fertilizer to help flowers bloom, educators of young children must look beyond challenging behaviors to what a child's actions are communicating about her learning environment or home life. Digital content includes all forms from the book along with a PDF presentation. *and illuminates how young children learn and understand concepts in a social and physical environment. This second edition has been fully updated throughout and its comprehensive coverage has been expanded with entirely new sections on technology and social media, cultural differences in play, and teaching ELLs and students with disabilities. Packed with vignettes, activities, and practical examples, this text is essential reading for pre-service teachers seeking appropriate theoretical practices for designing and implementing a play-based curriculum. Special Features Include: Suggestions and guidelines for activities and choosing classroom materials. Discussion of a full range of curriculum areas and topics including literacy, language, science, social studies, mathematics, art, music, blocks, and movement. Vignettes of children's conversations and examples of how children learn through play. End-of-chapter summaries to enhance and extend an understanding of young children. Here are 55 bulletin board ideas and activities -- for the whole curriculum and for every month of the year, September through August. Based on the bestselling Bulletin Boards For Every Month, this sequel contains even more ideas for self-esteem and character building, language arts, math, science, social studies, health, safety, and secular holidays. Includes patterns, borders, and two sizes of lettering.*

*This book provides a comprehensive and practical guide to using the project approach when teaching young children with special needs. While focusing on children's individual strengths, which include their interests, intelligences, and unique styles of learning, this resource demonstrates teaching strategies that address multiple areas of development. Using scenarios from their own practice, The authors examine the process of accessing children's strengths to facilitate social, emotional, cognitive, and motor development, including concepts and skills. The authors provide tools to determine, organize, and plan with children's strengths and demonstrate the use of documentation as an authentic assessment of children's skills and goals. Teachers will use this book to create learning environments that enrich learning for all children.*

*Written for pre-service and in-service early childhood professionals in child care, preschool, or kindergarten through third grade settings, ART & CREATIVE DEVELOPMENT FOR YOUNG CHILDREN, 8th Edition, takes a child-centered approach to art education. Updated throughout, the book includes an in-depth discussion of technology to aid teachers in understanding the role that technology can play in children's visual art appreciation and production. Guidelines for establishing an inclusive art program in classrooms for young children are included for early childhood professionals. Activities and recipes make the text a valuable resource for in-service teachers. Young Children, Pedagogy and the Arts is an innovative text that describes practices and research that cross all five strands of the arts—visual, drama, music, dance, and media—and illuminates ways of understanding children and their arts practices that go beyond the common traditions. The book: - Offers practical and rich illustrations of teachers' and children's work based on international research that integrates theory with practice; - Brings a critical lens to arts education; - Includes summaries, reflective questions, and recommended further readings with every chapter. Young Children, Pedagogy and the Arts provides a more nuanced understanding of the arts through an exploration of specific instances in which committed teachers and researchers are discovering what contemporary multimodal tools offer to young children. Chapters contain examples of 'doing' the arts in the early years, new ways of teaching, and how to use emerging technologies to develop multiliteracies, equity, agency, social and cultural capital, and enhance the learning and engagement of marginalized children.

Teaching Social and Emotional Learning in Physical Education is the ideal resource for understanding and integrating social and emotional learning (SEL) competencies into the structure of a physical education program, alongside physical activity and skill development goals. This text should be incorporated as a key resource to guide physical education teacher education courses specifically focused on social and emotional learning while also providing supplemental readings for courses related to physical education curriculum, instruction, assessment, and/or models-based practice. Similarly, practicing physical education teachers who are interested in developing a stronger focus on SEL in their teaching will find that the book provides a comprehensive resource to guide their professional learning and practice.

Nature-Based Learning for Every Preschool Setting is designed to provide ideas for all early childhood educators ranging from novice nature educators to highly experienced nature educators in a wide range of ecosystems, including forests, cities, prairies, coastal, and deserts. It

Ignite Your Passion for Learning and Improve Outcomes for Young Children

**Guides early childhood teachers on a journey of self-discovery and self-determination to take charge of their own professional development. This essential professional development resource provides advice for early childhood teachers who are navigating demands and changes in their careers, helping them see these challenges as growth opportunities. Through in-depth self-assessment and reflection, educators reexamine their teaching philosophy, integrate new knowledge and strategies into their practice, and strengthen the impact of their teaching on students. In the midst of a constantly changing education landscape, teachers will become more intentional in their practice and rediscover their unique purpose and passion for teaching young children. Digital content includes customizable forms from the book.**

Using a practice-based focus and a researcher lens, the contributors consider the ways in which environments for children enhance or diminish educational experiences, how social constructs about what is good for children influence environmental design, and what practitioners can do in their own work when creating learning environments for young children. There are copious examples from practice, lessons learned, and illustrations and photographs of key aspects of the environments they discuss. Organized into three parts, this essential text addresses: Aesthetics, politics, and space configurations in school environments for young children. Outdoor spaces, beginning with intentionally designed playscapes, children's gardens, and spontaneous improvisational play venues. The role of environments outside school, including informal learning environments that promote science knowledge, museum spaces, and virtual environments. "Through rich examples and clear explanations of the historical, political, and aesthetic dimensions of design, [Kuh and her colleagues] help us think critically about environments and provide theoretical and practical tools to support our efforts." —Benjamin Mardell, professor, Early Childhood Education, Lesley University. "An enlightening book that gives educators new lenses for thinking about and creating the kinds of places that can optimize children's growth and learning, especially in this era of standardization. Educators need this book!" —Nancy Carlsson-Paige, professor emerita, Lesley University "For everyone who wants to take educational settings beyond minimal standards, this collection is a thoughtful and inspiring guide." —Louise Chawla, professor, Environmental Design Program, University of Colorado, Boulder

This book presents basic introductory material on developing and managing curriculum for early childhood education. Designed as a resource for beginning students and as a reference manual for experienced teachers, the text presents focused, sequential coverage on curriculum for young children--excluding potentially confusing details about related topics that are covered in longer books. Discussions cover such important topics as similarities in existing approaches to early childhood education, how to meet children's needs through curriculum, and planning and organizing curriculum. The Second Edition features enhanced standards coverage, increased material on diversity and multiculturalism, video integration, new information on how child development affects curriculum, and more. CURRICULUM FOR YOUNG CHILDREN also helps students and teachers assess the wealth of activity ideas available from other textbooks, resource manuals, and websites. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This timely and accessible volume explores how our understanding of research in child development can help cultivate the knowledge, skills, and attitudes children need for informed and thoughtful participation in society by viewing the curriculum through a developmental lens. Biddle and Garcia-Nevarez cover a range of key topics including characteristics of physical, cognitive, and psychosocial development of children; heritable and environmental influences on children's developing self; language and literacy development; mathematical cognition; growth mindsets; and evidence-based positive behavioral interventions and supports. The expert team of contributors offers an advanced exploration of developmental science and how this applies to learning and education in order to create inclusive environments that support children with a range of abilities, including those with the most significant medical, intellectual, and developmental delays. Each chapter contains boxes exploring how the topic relates to the themes of "Promoting Social and Emotional Competence Theory," "Research to Practice Connection," "Common Core and Other Standards," and "Social Justice and Diversity," ensuring comprehensive and consistent coverage across the volume. Developmentally Appropriate Curriculum and Instruction will be essential reading for students of child development and education, as well as educators and those in teacher training who are interested in how theory and research can be effectively harnessed to improve children's outcomes.

**"This book envisions the language and learning possibilities of young children's active engagement in literature discussion, which is not often found in books about early read-alouds. This book promotes read-aloud experiences that keep children, their backgrounds, and their experiences front and center. This book shares our journey, as educators and researchers, with a goal to support the learning journey of other early childhood educators. This book includes vignettes from classroom literature discussions as well as conversations between educators"--**

**GROWING ARTISTS: TEACHING THE ARTS TO YOUNG CHILDREN, 6th Edition, provides early childhood educators with the theoretical framework and background knowledge needed to design creative arts activities for young children from infancy through the primary grades. Beautifully illustrated with children's artwork, it features a wealth of child-tested, open-ended dramatic arts, music, creative dance, and visual art activities that foster children's creativity. Examples of teaching in action model how to be an enthusiastic and effective teacher of the arts process. This book provides a rich-resource of ideas and approaches that will inspire all those who work with young children to explore the arts process with them.
